

Environmental Club of University of Nebraska at Omaha

Mission Statement

To establish University of Nebraska at Omaha as a leader of environmental integrity.

To fulfill this Mission, EC UNO will:

- Consider the social, environmental and economic impact of University of Nebraska at Omaha policies and practices, and foster a participatory process to ensure the university operates and grows in a manner which respects our local and global environments.
- Adopt, develop and implement programs that leverage partnerships, alternative technologies, resources, practices and procedures, to improve environmental quality and increase sustainability.
- Protect the biodiversity of our region, and serve as a leader in ecological stewardship.
- Create a culture within the University of Nebraska community which affirms our commitment to these principles, through education, research, community service, and administrative operations.
