

Designating *Open Nebraska* Course Sections in CLSS

Scheduling units (i.e., colleges, departments, or programs) are responsible for properly marking course sections as *Open Nebraska: No Cost Materials*, *Open Nebraska: Low Cost Materials*, or *Open Nebraska: Low Cost E-Book* when applicable. Please see the images below for the steps in this process within the [CourseLeaf Class Section Scheduler \(CLSS\)](#).

The CLSS system allows scheduling units to update the *Open Nebraska* section attribute during the [Class Schedule Building Timeline](#). Adding this designation during the Schedule Build process ensures that students will be able to find *Open Nebraska* sections before they add courses to their cart or enroll.
