What do we know?

How do we know what we know?

What are the defining features, the substantive conditions, and the limits of knowledge and its justification?

What is the nature and structure of reality?

Are we simply very complex parts of the physical world or is there something very special about us?

Are our actions subject to the physical laws of nature or do we have some special sort of freedom?

Are there non-physical entities, e.g., God?

When does the club meet?

Club members determine meeting frequency, time and location.

Who is the Club sponsor?

Dr. Halla Kim is the club sponsor but all UNO philosophers participate.
