Omer Farooq - Revised bibliography statement (2023 Edition): Please provide a list of relevant sources connected to the course content. When possible, the bibliography should reflect the most current knowledge in the field. This list will be reviewed by the UNO Libraries subject librarians for collection development purposes to ensure there are appropriate materials to support new curriculum. For specific resources that require institutional subscriptions/licenses such as databases or journals to support the proposed course, please contact your subject librarian directly. It is recommended that you include at least 5 and no more than 10 relevant sources. **Please indicate which sources, if any, are assigned course readings.**

**Possible resolutions:**

- Add to form: two boxes one for assigned reading and another for other references.
- Add a check box that they need to meet with the subject librarian.
- Develop and attach a form on materials needed for course. Example Rowan University:
