What do students say about Honors?

The Honors seminar courses provide much more personal faculty relationships to students who undertake the courses. They allowed me the space to feel comfortable to engage openly with other like-minded individuals who respectfully challenged my understanding of specific topics. It also felt more experiential than the other classes I have taken at UNO, allowing me to truly learn in many different respects as opposed to a traditional class.
Gio, May 26 PSCI and BSBA Graduate

I met amazing people and learned so much. Honors gave me a lot of special opportunities.
Noah, May 26 SECED graduate

Seminars made my education more well-rounded. I got to take courses I never would have been able to otherwise and learn from experts in their field who wanted to be there.
Miah, May 26 CSCI graduate

It helped me learn more about many layers of how the world operates.
Joel, May 26 Music graduate

Small discussion-based classes gave me more confidence and practice speaking up in class; I enjoyed exploring topics/disciplines outside of my major.
Alexa, May 26 PSYC graduate

The University Honors Program aims to provide an enhanced and supportive learning environment for exceptionally motivated and talented students.
