

Careers in Mathematics & Computer Science

Andrew Gacek

UNO Class of 2004

Friday Oct 9th at 2:30 PM in DSC 254

Dec 2001: Andrew Gacek, Jared Davis, Hing Lim Chan

As a UNO undergraduate majoring in Mathematics and Computer Science, Andrew Gacek was involved in undergraduate research and competed in the **Putnam Mathematical Competition** where, as a junior in December 2003, he scored 60 points, placing in the top 2% of the over 3,000 students from across the US and Canada who participated that year.

After he graduated in 2004, Andrew completed his PhD in Computer Science in 2009 at the University of Minnesota and then spent a year as a post-doc at INRIA Saclay in France. He is now a Senior Industrial Logician at Rockwell Collins, applying his mathematical background to the verification of safety critical systems.

Come hear what life, work and *yes!!* mathematics look like in an industrial research group.
