

Amphibians of Glacier Creek Preserve 2016

FAMILY	SCIENTIFIC NAME	COMMON NAME
HYLIDAE	<i>Acris blanchardi</i> prev. <i>Acris crepitans</i>	Blanchard's Cricket Frog prev. Northern
AMBYSTOMATIDAE	<i>Ambystoma mavortium</i> prev. <i>A. tigrinum</i>	Barred Tiger Salamander prev. Eastern
BUFONIDAE	<i>Anaxyrus fowleri</i> prev. <i>Bufo fowleri</i>	Fowler's Toad*
BUFONIDAE	<i>Anaxyrus woodhousii</i> prev. <i>Bufo woodhousei</i>	Woodhouse's Toad*
HYLIDAE	<i>Hyla chrysoscelis</i> or <i>Hyla versicolor</i>	Cope's or Common Gray Treefrog**
RANIDAE	<i>Lithobates blairi</i> prev. <i>Rana blairi</i>	Plains Leopard Frog
RANIDAE	<i>Lithobates catesbeianus</i> prev. <i>Rana catesbeiana</i>	American Bullfrog
RANIDAE	<i>Lithobates pipiens</i> prev. <i>Rana pipiens</i>	Northern Leopard Frog
HYLIDAE	<i>Pseudacris maculata</i> prev. <i>Pseudacris triseriata</i>	Boreal Chorus Frog prev. Western

*Interrelationship of Woodhouse's and Fowler's caused identity confusion - these toads are now separate species - Fowler's occurs in east and southeast US.

**Cope's often can be found sympatrically with Gray Treefrog, which is virtually identical in appearance (Fogell).

All species classifications designated using

The Center for North American Herpetology database
