DUAL ADMISSION

Applicants **MUST** complete the application process for each of the programs, MBA and MPH, separately, and **MUST** meet the requirements for each program. The student must indicate that he or she is applying for admission to the MBA/MPH dual degree program on the application.

Applications are evaluated by each degree program in separate admissions processes. It is possible that an applicant will be admitted to one program and not the other. In this case the applicant can matriculate into the accepted program, but not participate in the dual degree option.
