

ECONOLYMPICS COMPETITION DAY

GENERAL INFORMATION: The competition will be held on Thursday May 18th. The competition will be held by grade level in the gym and family resource room. Grade 6 will compete during 1st block. Grade 5 will compete during 2nd block. Grade 8 will complete during 3rd block and grade 7 will complete during 4th block. The social studies teachers at your grade level will organize how the students will be brought to the competition. The competition will take 40-45 minutes after the students arrive. If the students finish their projects early, please have the students sit quietly in the bleachers and wait for the other students to finish. All students will return to the classrooms after the 40-45 minute competition time. The remainder of the block will be used by the judges to look over the projects and the South High School students to set up for the next group.

Teachers are expected to supervise the students they bring to the EconOlympics. South High students will run the events. Judges are from Wells Fargo, the Federal Reserve Bank, UNO, the National Council of Economics, and South Omaha Business Association. I will want to visit each grade level to distribute medals to the 1st, 2nd and 3rd place winners in each event sometime during the last week of school. Please let me know when I can visit each grade level. I will be teaching an exploratory class, so a time in the morning would be best.

If you are available Wednesday May 17th after school, I would love to have help in the gymnasium setting up for the EconOlympics. Please email me if you are willing to help.

Thank you for your support!
