

ECONOMICS

4 + 1 DEGREE IN ECONOMICS

Why study economics?

Economists are problem solvers. The field is not a series of facts about the economy you memorize — it is a method of studying humans using models and data. While economics includes the study of what people buy and how products are produced, economics can be applied to numerous fields including art, education, law, medicine, psychology, sociology, and urban studies. Further, economics is the foundational science on which all business fields are built.

Undergraduates earn a Master of Science in Economics (MS-Econ) in one year

Eligible undergraduate UNO students can earn a Master of Science in Economics degree with just one additional year of study. In five years, students can receive a Master of Science in Economics¹ along with their Bachelor of Science in Business Administration (with a concentration in economics), Bachelor of Science in Economics, or Bachelor of Arts in Economics.

Interested students must work closely with the economics graduate program advisor and their undergraduate academic advisors to determine whether it will be possible to apply 12 hours of dual-level graduate economics courses to his/her undergraduate degree prior to finishing his/her senior year.

¹ Graduate economics is a STEM-designated degree program. International students are eligible for an additional 24 months of optional practical training (OPT) beyond the standard 12 months of OPT.

Eligibility

- Minimum GPA of 3.50 (both overall and economics GPA)
- Junior standing (at least 58 earned credit hours)
- Qualify by end of second semester of junior year
- Preferable to have completed:
 - ECON 3200 Economic Theory: Micro (Intermediate Micro)*
 - ECON 3220 Economic Theory: Macro (Intermediate Macro)*
 - BSAD 2130 Principles of Business Statistics* or equivalent

* If course grade is not available at the time of application, admission decision is postponed until course grade is officially available.

Application Process

- Consult with undergraduate and graduate advisors to determine eligibility
- File application to the MS Economics program with the Office of Graduate Studies

UNIVERSITY OF NEBRASKA AT OMAHA

4 + 1 Economics Degree Program

PROGRAM REQUIREMENTS

FRESHMAN/SOPHOMORE

ECON 2200	Principles of Economics: Micro	3

¹ Upon consultation with graduate program advisor.

² Students not taking courses in these summer semesters must stay a semester beyond year five.

At least 6 credit hours of electives must be graduate only (8##0) courses. Students are encouraged to complete an area of concentration which requires 9 hours of elective courses. All normal guidelines of the BS/BA and MS programs apply.
