Positions

2023-present	Associate Professor, University of Nebraska at Omaha Biomechanics Research Department and Center for Research in Human Movement Variability
2017-2022	Assistant Professor, University of Nebraska at Omaha Biomechanics Research Department and Center for Research in Human Movement Variability
2015-2016	Postdoctoral Research Fellow, Harvard University John A. Paulson School of Engineering and Applied Sciences and Wyss Institute for Biologically Inspired Engineering Role: Biomechanics team lead in DARPA-funded exosuit project Advisor: Walsh C. J.
Summer 2013	Visiting Scholar, Carnegie Mellon University Department of Mechanical Engineering Advisor: Collins S. H.
2010-2014	Postdoctoral Assistant, Ghent University Department of Movement and Sports Sciences Laboratory of Movement Science Advisor: De Clercq D.

Education

2004-2010	Ph.D., Ghent University Thesis: Influence of intrinsic and extrinsic determinants on the transition from walking to running. Advisor: De Clercq D.
2002-2003	M.Sc. in Academic Teaching, Ghent University
2000-2002	M.Sc. in Movement and Sports Sciences, Ghent University
1998-2000	B.Sc. in Movement and Sports Sciences, Ghent University

Teaching

2021- Present	Lab Methods in Biomechanics II (latest overall instructor rating 4.50/5)
2017- Present	Undergraduate Biomechanics (latest overall instructor rating 4.35/5)
2017-2019	MATLAB for Movement Sciences (latest overall instructor rating 4.25/5)
2017-2019	Guest lectures for Motor Control I
2013-2014	Honors Program in Movement Sciences, 1st and 2nd year of Kinesiology M.Sc.: Advanced program to prepare students for working as sports scientists or starting a Ph.D.
2012-2013	Lecturer in Individual Movement Activities, 1st and 2nd year of Kinesiology M.Sc.: Coordination several instructors who teach classes on track and field, artistic gymnastics, and swimming.
2008-2011	Movement Analysis of Fitness Training, 1st year of Kinesiology M.Sc.: EMG and isokinetic measurement lab
2004-2014	Sport-Specific Movement Analysis, 1st year of kinesiology M.Sc.: Demonstration of methods in sports biomechanics and supervision of projects
2004-2014	Movement Analysis, 3rd year of Kinesiology B.Sc.: Practical exercises on lifting ergonomics and gait analysis with treadmill, force plate, video, and motion capture
2004-2014	Biomechanics, 2nd year of kinesiology B.Sc.: Practical exercises on ground reaction force measurement and data analysis using Excel

Mentoring and Advising

2024-present	Postdoc advisor van den Berghe P.
2023-present	Ph.D. advisor Shin S.
2022-2024	MSc. Advisor Razavi H., now a Ph.D. student at the University of Michigan
2020-2023	PhD. advisor Dzewaltowski A., now a postdoc at Rosalind Franklin Institute
2020-2022	MSc. advisor Kowalczyk K., now a Ph.D. student at the University of Georgia
2020-2022	MSc. advisor Senatore S., now a Ph.D. student at the University of Memphis, Tennessee
2018-2022	PhD. advisor Gonabadi A., now Assistant Research Director at Madonna Rehab Hospital
2017-2020	Ph.D. advisor Antonellis P., now a scientific consultant at NIRx
2017-2019	MSc. advisor Frederick C., now senior regulatory affairs coordinator at UMass Bringham
2015	Co-mentor for one design-engineering final project at Harvard University
2010-2015	Co-advisor Ph.D. Breine B., now staff scientist and coach at La Verrerie, Freiburg
2011-2015	Mentor of eight M.Sc. theses in Kinesiology and one M.Sc. thesis in electromechanical engineering
2013-2015	Mentor of two honors theses
2004-2010	Mentor of seven M.Sc. theses in Kinesiology

Student Grant Support

2025	AHA Predoctoral Award	Sangwon S.	$70,000
2024	HMV Conf. Greatest Clinical Impact Award	Razavi H.	
2023	UNO GRACA	Shin S	$5000
2023	UNO GRACA	Shin S.	$5000
2023	UNO GRACA	Razavi H.	$5000
2022	CEHHS Outstanding graduate student	Kowalczyk K.	
2022	RMASB best MSc. presentation finalist	Kowalczyk K.	
2020	HMVC Promising young student finalist	Gonabadi A.	
2020	UNO GRACA	Kowalczyk K.	$5000
2020	UNO GRACA	Senatore S.	$5000
2020	Outstanding Graduate Student Award	Gonabadi A.	
2019	UNO GRACA	Gonabadi A.	$5000
2018	NCSSR workshop Forum Participation Award	Gonabadi A.	
2018	NCSSR OpenSim virtual workshop	Gonabadi A	
2019	AMTI travel grant	Antonellis A.	$1000
2019	NIH Summer course	Antonellis A.	
2019	Paul Beck Scholarship	Antonellis A.	$500
2019	UNO GRACA	Antonellis A.	$5000
2019	UNO FUSE	Runyan T.	$1000
2018	UNO GRACA	Antonellis A.	$5000

Code Repositories and Biomechanical Datasets in Supplementary Materials

1. Code and a folder structure for processing and analyzing cyclical gait data. https://github.com/philippemalcolm/GaitCodeTemplatePublic
2. Stride-normalized time series, metabolic cost, and algorithms for perturbation-based metabolic cost estimation (Dzewaltowski et al., 2024)
3. Stride-normalized time series and metabolic costs of walking with a semi-rigid hip exoskeleton (Gonabadi et al., 2024)
4. Stride-normalized timeseries and metabolic costs of walking experiments with a robotic waist tether (Antonellis et al., 2022)
5. Stride-normalized time series and metabolic costs of walking experiments and muscle-driven simulations (Gonabadi et al., 2020)
6. Stride-normalized time series of hardware and controls optimization experiments of a robotic waist tether (Gonabadi et al., 2020)
7. Stride-normalized time series and metabolic costs of walking experiments with different footwear and treadmill inclinations (Antonellis et al., 2020)
8. Stride-normalized time series and metabolic costs of walking with a biarticular knee-ankle-foot exoskeleton (Malcolm et al., 2018)
9. Stride-normalized time series and metabolic costs of walking and running with a portable hip exosuit (Kim et al., 2019)

International Patent

1. Kowalczyk, K., **Malcolm, P.**, Takashi, S. Passive Exosuit for Asymmetry Rehabilitation, International Publication Number WO 2023/192982 A2

Awards and Recognition

2024	Article on faster-than-biological assistance in TNSRE featured as a research highlight for October 2024.
2020	Three articles (Malcolm et al., 2013; Lee et al., 2017; Kim et al., 2019) were listed among the nine milestones of advancement in exoskeleton technology in a review by Sawicki et al. (2020).
2019	Four studies were cited in an editorial overview of previous 15 years of JNER (Reinkensmeyer et al., 2019). One article was listed in the top 10 of the most cited publications in 2017.
2018	Finalist selection for Clinical Translational Research Superstar grant writing competition.
October 2013	Galle et al., (2013) selected as study as study of the week in literature update of International Society of Biomechanics.
April 2013	Malcolm et al., (2013) selected as study of the week in literature update of International Society of Biomechanics.
2007	Young Investigator Award, International Society of Biomechanics, Study: A pneumatic ankle-foot-orthosis as a means to experimentally validate hypotheses about the role of the tibialis anterior in the walk-to-run transition.

Invited Presentations

2025	Western Nebraska Stroke Symposium (scheduled)
2025	Kick-off of Move Core Facilities, Ghent University (keynote presentation)
2024	Biomechanically inspired low-cost exosuits for gait rehab in rural stroke survivors. Nebraska Stroke Association.
2022	Wearable robots, inspired by and informing the biomechanics of walking. UNL Biomechanical Engineering seminar
2020	Wearable Robotic Conference "A robotic tether can assist more efficiently than a passive tether, but the optimal timing is counterintuitive." Virtual WeRob Madrid
2019	Using wearable robots to "feel" metabolic cost and provide simple timed assistance. UNMC Surgery Forum. Omaha
2019	Using wearable robots to "feel" metabolic cost and provide simple timed assistance. UNO Biomechanics Seminar Series, Omaha
2019	Assistive mechanisms of (distal) ankle exoskeletons and a (proximal) robotic waist tether. ASB symposium on exoskeletons and prostheses
2017	Human Exoskeleton Researchers Reddit AMA together with Dick, T., Ferris, D., Sawicki, G., Neugebauer, J., and Zelik, K. at American Society of Biomechanics.
2017	Exoskeleton actuation inspired by and informing biomechanics. UNO Biomechanics Seminar Series, Omaha
2017	Optimization of exoskeleton actuation: Comparison of results with exoskeletons and exosuits, AHFE, Los Angeles
2014	Optimization of a simple assistive exoskeleton through human biomechanics experiments Biodesign lab meeting, Harvard University, Cambridge
2014	Optimization of actuation and configuration of assistive devices for walking through human experiments, 7th World Congress of Biomechanics, Boston
2013	Effect of actuation and configuration of assistive devices. Lab visit, University of Michigan, Ann Arbor.
2013	Bipedal locomotion seminar. Carnegie Mellon University, Pittsburgh
2013	A simple exoskeleton can reduce the metabolic cost of walking. Dynamic Walking Conference, Carnegie Mellon University, Pittsburgh Video: www.youtube.com/watch?v=qXIfHBH4ry0#t=8656
2013	A simple pneumatically powered exoskeleton can reduce the metabolic cost of walking. High Tech Systems, Eindhoven

Grants

Current

2024-2025 NU Collaboration Initiative:
Low-cost exosuits for home-based constraint-induced therapy in rural stroke survivors.
Role: PI $97,000

2022-2025 NSF Collaborative Project:
Detecting the Walking Phases with Raised Oxygen Costs for Targeted Therapy.
Role: PI $238,743

2019-2025 NIH COBRE:
Exoskeleton optimization for reducing gait variability in patients with peripheral artery. disease.
Role: Subproject lead $548,621 for subproject

Completed

2022-2023 NU Collaboration Initiative
At-home stroke rehabilitation using low-cost asymmetric exosuits.
Role: PI $40,000

2021-2022 NU Collaboration Initiative
Detecting the Walking Phases with Raised Oxygen Costs for Targeted Therapy
Role: PI $38,399

2020-2023 VA
Exoskeleton footwear to improve walking performance and subject-reported preference.
Role: Co-investigator $12,051 for own contribution

2018-2019 Nebraska / NSF EPSCOR
Dynamic Indirect Calorimetry.
Role: PI $50,000

2018-2019 University of Nebraska System Collaboration Initiative
Exoskeletons for mobility assistance.
Role: PI $8,500

2017 Industry consultancy grant: J Brasch Co. LLC
Gait-o-gram: differentiating fallers from non-fallers using nonlinear analysis.
Role: PI $64,480

2017 NASA Nebraska
Influence of foot-ground traction on gaits for reduced gravity.
Role: PI $24,092.

Committee Service

2022 - present	Academic Standards and Policies, 2022 - Present
2021 - present	UNMC adult IRB
2024	Search ccommittee chair: Research Associate Faculty
2019-2020	Search committee member: Assistant Professor
2017-2019	Committee member: Student affairs committee
2017-2018	Search committee member: Associate Professor

Conference Service

2025	Co-organizer Great Plains American Society of Biomechanics (scheduled)
2024	Co-organizer Great Plains American Society of Biomechanics
2021	Co-organizer Rocky Mountain American Society of Biomechanics
2019	Session co-chair at the American Society of Biomechanics
2018, 2019	Session chair at Rocky Mountain American Society of Biomechanics
2017-present	Abstract reviewer service at several national and international conferences.

Journal Review Service

Performed 100 verified peer reviews, including the following journals:
Science Robotics (IF 24), Biocybernetics and Biomedical Engineering (IF 5.4), Journal of NeuroEngineering and Rehabilitation (IF 4.5), Frontiers in Neuroscience (IF 4.5), Scientific Reports (IF 4.4), Journal of the Royal Society Interface (IF 4.1), IEEE Transactions on Neural Systems and Rehabilitation Engineering (IF 3.5), Journal of Applied Physiology (IF 3.5), Plos One (IF 3.2), European Journal of Applied Physiology (IF 3.1), IEEE International Conference on Intelligent Robots and Systems (IF 3), Royal Society Open Science (IF 2.9), Gait & Posture (IF 2.2), Robotica (IF 2), IEEE RAS/EMBS Int. Conf. on Biomedical Robotics and Biomechatronics, IEEE Robotics and Automation Letters.
Review service record available on https://publons.com/researcher/1217881/philippe-malcolm

Grant Review Service

2025	Performed grant reviews for AHA
2024-present	Performed grant reviews for NIH
2022-present	Performed annual grant reviews for NSF
2017-present	Performed grant reviews for Canadian and European funding agencies

Outreach

2024-2025	Yearly lecture series targeted for older adults on “Every step counts: health benefits of walking” at Osher Institute of Lifelong Learning
2024	Millard High School Science Fair: interactive passive dynamic pendulum walker demo
2017-present	National Biomechanics Day: Interactive games with EduExo exoskeleton.
2018 and 2024	Submission of tutorial to educational repository of the American Society of Biomechanics Using EduExo to visualize electromechanical delay in the m. biceps brachii.
2018, ‘19, ‘20	Nebraska Robotics expo
2015	Family Day of Discovery, Harvard University: Soft Exosuit demonstration
2014	Kids University Day, Ghent University: Lecture about biomechanical support of an elite high jump athlete
2009	Science Night, Ghent University: Biomechanical support of an elite high jump athlete
2004-2014	Ghent University: Yearly open-lab days for high-school students

Media

Covered by over 150 news outlets, including:
AAAS Newsletter, BBC, Boston Globe, EOS, Exoskeleton Report, Gizmodo, IEEE Soft Robotics podcast (scheduled for June), New Scientist, NPR Science Friday, Popular Mechanics, Reddit, Scientific American, The Economist, The Telegraph

Five articles were in the top 5 percentile of attention-score of all research (Source www.altmetric.com)

Examples of Media Releases:

2024	Using exoskeletons to demystify energy economy. HuMoTech podcast
2022	Communication video: UNO Research Discovers Surprising Way to Make Walking Easier https://www.youtube.com/watch?v=DwN3rBUIi6o
2022	NSF Funds Machine-Learning Research at UNO and UNL to Study Energy Requirements of Walking in Older Adults https://www.unomaha.edu/news/2022/07/nsf-metabolic-cost-study.php

Memberships
