STATEMENT OF RESEARCH INTERESTS

Movement is considered a sixth vital sign. It can provide valuable information about neurological disease, cognition, risk of injury, and many other aspects of health. Movement is also one of the few behaviors that can be objectively measured and quantified, allowing rigorous, personalized, and reproducible assessment. Therefore, I study movements to decipher the “choreography” of physiological fluctuations associated with complex behaviors and functions in tasks as complex as perceiving the length of a handheld rod by wielding in the absence of vision and even making sense of the voice of text-to-speech synthesizers. My research primarily relies on statistical modeling of multimodal human movement data longitudinally collected in healthy and clinical populations. Instrumentation used to collect this data include motion capture system, eye tracking, force plates embedded in the floor, electromyography, FLIR/RGBD video camera, inertial measurement units, and virtual reality setup. My work uses cutting-edge analytical techniques such as “multifractal analysis” and “multiscale probability density function analysis” borrowed from statistical physics and fluid dynamics to probe the temporal structure of physiological data. My work further develops these approaches to study how complex psychological phenomena unfold across multiple space and timescales (from individuals to groups to populations, and from seconds to minutes to weeks). My research program promises to identify and model the nonstationary, far-from-equilibrium processes that characterize the creativity and emergence of biological and psychological behavior.

WORK EXPERIENCE

UNIVERSITY OF NEBRASKA AT OMAHA | RESEARCH ASSOCIATE
NONLINEAR ANALYSIS CORE, DEPARTMENT OF BIOMECHANICS
01 August 2022 – Present | Omaha, NE

NORTHEASTERN UNIVERSITY | POSTDOCTORAL RESEARCH ASSOCIATE
MOVEMENT NEUROSCIENCE LABORATORY, DEPARTMENT OF PHYSICAL THERAPY, MOVEMENT AND REHABILITATION SCIENCES
07 January 2019 – 31 July 2022 | Boston, MA
w/ Prof. Eugene Tunik

UNIVERSITY OF GEORGIA | TEMPORARY TECHNICAL/PARAPROFESSIONAL
DEPARTMENT OF PSYCHOLOGY
28 January 2019 – 26 February 2019 | Athens, GA
w/ Prof. Dorothy M. Fragaszy

UNIVERSITY OF MYSORE | RESEARCH ASSISTANT
DEPARTMENT OF PSYCHOLOGY
11 July 2012 – 31 July 2014 | Mysore, KA, India
w/ Prof. Mewa Singh

EDUCATION

UNIVERSITY OF GEORGIA | PH.D.

BEHAVIOR AND BRAIN SCIENCES PROGRAM, DEPARTMENT OF PSYCHOLOGY

18 August 2014 – 12 December 2018 | Athens, GA

Dissertation: The biomechanics of multi-joint posture and movement control in wild bearded capuchin monkeys using stone hammers.

w/ Prof. Dorothy M. Fragaszy, Prof. Karl M. Newell, & Prof. Dean Sabatinelli

INDIAN INSTITUTE OF SCIENCE EDUCATION AND RESEARCH PUNE | DUAL DEGREE B.S.–M.S.

LIFE SCIENCES

20 August 2007 – 15 May 2012 | Pune, MH, India

Thesis: Strategies in novel food extraction tasks and responses to perceived threats in urban free-ranging dogs, *Canis familiaris*.

w/ Prof. Mewa Singh

FUNDED RESEARCH PROPOSALS

2020–21 **Facebook Technologies LLC | USD 79,423**

“Virtual reality and neuroplasticity”

Role: Co-I (PI: Eugene Tunik; Co-I Mathew Yarossi)

2017–19 **Committee for Research and Exploration, National Geographic Society | WW-051R-17 | USD 29,226***

“Nut-cracking in wild bearded capuchin monkeys: Patterns of coordination in movements”

Role: Co-I (PI: Dorothy M. Fragaszy; Co-Is: Patrícia Izar & Elisabetta Visalberghi)

*UGA policy does not permit graduate students to serve as PIs

2016 **Innovative and Interdisciplinary Research Grant | USD 1,000**

Graduate School, University of Georgia

PENDING RESEARCH PROPOSALS

2023–26 **Joint DMS/NIGMS Initiative to Support Research at the Interface of the Biological and Mathematical Sciences (DMS/NIGMS), National Science Foundation | USD 562,678**

“Is non-ergodicity a cause of the reproducibility crisis?”

Role: Co-I (PIs: Aaron Likens & Damian G. Kelty-Stephen; Co-PI: Nick Stergiou)

2023–26 **R21, National Institute of Aging | USD 500,370**

“Leveraging an Augmented Reality (AR)-based virtual walking companion to reduce fall risk in older adults”

Role: Co-PI (Co-PI: Spyridon Mastorakis; Co-Is: Aaron Likens & Nick Stergiou)

UNFUNDED RESEARCH PROPOSALS

2022 **R21, National Institute of Neurological Disorders and Stroke | USD 425,876**

“Parietal contribution to sensorimotor updating for object perturbations during tool-assisted grasping”

Role: PI (Co-I: Mathew Yarossi, Mariusz P. Furmanek, & Eugene Tunik)

2021 **Perception, Action & Cognition (PAC), National Science Foundation | USD 599,877**

“How embodiment contributes to motor coordination”

Role: Co-I (PI: Eugene Tunik; Co-PIs: Lisa B. Feldman, Karen Quigley, & Sarah Ostadabbas; Co-Is: Mariusz P. Fumanek & Mathew Yarossi)

2021 **K99/R00, National Institute of Neurological Disorders and Stroke | USD 939,098**

“Premotor contributions to online updating, learning, and consolidation during tool-assisted grasping with novel fingers-to-tool mappings”

Role: PI (Mentor: Eugene Tunik; Co-mentor: John W. Krakauer; Collaborator: Jon S. Matthis)

Mangalam, M. & Fragaszy, D. M. (2015). Wild bearded capuchin monkeys crack nuts dexterously. **Proceedings of the XVIII International Conference on Perception–Action** 86.

INVITED PRESENTATIONS

- 2022 **Brain, Learning, Animation, and Movement Lab, Johns Hopkins Neurology** Baltimore, MD | April 29
Using Turing's cascade instability to knit together the mind, brain, and behavior.
- 2022 **CESPA, Department of Psychological Sciences, University of Connecticut** Storrs, CT | April 01
Using Turing's cascade instability to knit together the mind, brain, and behavior.
- 2021 **Department of Psychology, University of Tennessee** Knoxville, GA | December 8
Using Turing's cascade instability to knit together the mind, brain, and behavior.
- 2021 **Department of Cognitive Science, Indian Institute of Technology** Kanpur, India | November 9
Multifractal signatures of perceptual processing on anatomical sleeves of the human body.
- 2016 **American Association of Physical Anthropologists** Atlanta, GA | April 13–16
Embodied foundations of stone tool use shared by humans and bearded capuchin monkeys.

*Symposium: **Hands, Brains, and Tools: Integrating concepts in human evolution** organized by Dr. Dietrich W. Stout*

ORAL PRESENTATIONS

- 2023 **Ergodicity Economics** Cascais, Portugal | February 2–3
Is non-ergodicity a cause of the reproducibility crises?
- 2023 **Ergodicity Economics** Cascais, Portugal | February 2–3
Non-ergodic, intermittent sensorimotor control of walking.
- 2023 **Ergodicity Economics** Cascais, Portugal | February 2–3
Multifractal descriptors restore ergodicity broken by multiplicative cascade processes.
- 2022 **North American International Society for Ecological Psychology** Hattiesburg, MS | June 23–25
Exploring multifractal roots of suprapostural dexterity using ergodic descriptors of nonergodic postural fluctuations.
- 2022 **North American International Society for Ecological Psychology** Hattiesburg, MS | June 23–25
Multifractal nonlinearity in movements producing and exploring speech supports perceiving and remembering speech.
- 2018 **North American International Society for Ecological Psychology** Normal, IL | June 27–28
Wild monkeys structure motor variability to stand bipedally while using stone hammers.
- 2018 **Department of Organismal Biology and Anatomy, University of Chicago** Chicago, IL | March 12
What stone tool-using wild monkeys can tell us about prehistoric toolmakers and cyborgs.
- 2018 **Society for Integrative & Comparative Biology** San Francisco, CA | Jan 3–7
Haptic perception in motor control, at land, in water, in air, and space, of a fish's fin, a flamingo's neck, a monkey's tail, a snake's spine, and a bat's wing.
- 2017 **American Society for Primatologists** Washington, DC | Aug 25–28
Identifying distinguishing features of perceptuomotor control of stone tools in humans and bearded capuchin monkeys.
- 2017 **7th Annual Graduate Students & Postdocs in Science Day**, University of Georgia, Athens, GA | April 17
Perceptual-motor control of stone tools in wild monkeys: Implications for the origins of stone-tool manufacture in hominins.
- 2017 **40th Annual Psi Chi Convention**, University of Georgia, Athens, GA | April 14
Perceptual-motor control of stone tools in wild monkeys: Implications for the origins of stone-tool manufacture in hominins.
- 2017 **Society for Integrative & Comparative Biology** New Orleans, LA | Jan 4–8
How wild bearded capuchin monkeys crack nuts.

- 2016 **North American International Society for Ecological Psychology** Clemson, SC | June 20–22
Biomechanical analysis of the affordances of anvil-and-hammer tools in wild bearded capuchin monkeys.
- 2015 **XVIII International Conference on Perception–Action** Minneapolis, MN | July 14–18
Wild bearded capuchin monkeys crack nuts dexterously.

POSTER PRESENTATIONS

- 2022 **Psychonomic Society 63rd Annual Meeting** Boston, MA | November 17–20
Nonlinear temporal structure provides a common substrate for production, perception, and memory of language.
- 2022 **Society for the Neural Control of Movement** Dublin, Ireland | July 25–29
An immutable control policy governs fingers closure during reach-to-grasp coordination.
- 2022 **Society for the Neural Control of Movement** Dublin, Ireland | July 25–29
Frontoparietal involvement in online updating of reach-to-grasp to mechanical perturbations of hand transport: A TMS study.
- 2021 **Society for Neuroscience** Global Connectome | Jan 11–13
Involvement of dorsal and ventral premotor cortices in online updating to reach and grasp perturbations.
- 2019 **Boston Area Neuroscience Group** Boston, MA | November 7
Grasp responses to mechanical perturbations of reach.
- 2019 **Society for Neuroscience** Chicago, IL | October 19–23
Grasp Response to transport perturbation during reach-to-grasp in virtual environment.
- 2018 **International Society for Ecological Psychology** Normal, IL | June 27–28
Point of percussion influences perception of the length of a wielded object via dynamic touch by striking.
- 2018 **Society for the Neural Control of Movement** Santa Fe, NM | April 30–May 4
Wild monkeys structure motor variability to maintain a stable bipedal stance while using stone hammers.
- 2018 **Society for Integrative & Comparative Biology** San Francisco, CA | Jan 3–7
Joint synergies in nut cracking in wild bearded capuchin monkeys.
- 2017 **Society for Integrative & Comparative Biology** New Orleans, LA | Jan 4–8
Wild bearded capuchin monkeys outperform humans in cracking nuts.
- 2016 **International Society for Ecological Psychology** Clemson, SC | June 20–22
Wild bearded capuchin monkeys use their semi-prehensile tail as a cantilever of adjustable length.
- 2015 **XVIII International Conference on Perception–Action** Minneapolis, MN | July 14–18
Quantifying affordances.

MEDIA COVERAGE OF RESEARCH*

*Undergraduate mentees.

Mangalam, M., Rein, R., & Fragaszy, D. M. (2018). Bearded capuchin monkeys use joint synergies to stabilize the hammer trajectory while cracking nuts in bipedal stance. *Proceedings of the Royal Society B: Biological Sciences* 285(1889), 20181797.

AWARDS, FELLOWSHIPS, & GRANTS

- 2019 **Herbert Zimmer Award for Outstanding Research | USD 500**
Department of Psychology, University of Georgia
- 2018 **Departmental Teaching Assistantship | USD 15,642**
Department of Psychology, University of Georgia
- 2018 **Graduate School Travel Grant | USD 775**
Graduate School, University of Georgia
- 2017–18 **Departmental Teaching Assistantship | USD 21,660**
Department of Psychology, University of Georgia
- 2017 **Graduate School Travel Grant | USD 775**
Graduate School, University of Georgia
- 2017 **Walter Isaac Travel Award | USD 300**
Department of Psychology, University of Georgia

- 2015 **Honorary Domestic Travel Assistance | INR 11,000**
Biopsychology Laboratory, University of Mysore, India
- 2015 **Foreign Travel Assistance | USD 1,850**
OVPR, University of Georgia
- 2015 **Walter Isaac Travel Award | USD 300**
Department of Psychology, University of Georgia
- 2015 **Outstanding Publication Award**
Department of Psychology, University of Georgia
- 2014–15 **Ph.D. Scholars of Excellence Assistantship | USD 21,000**
Department of Psychology, University of Georgia
- 2015 **Education Related Travel Grant | INR 40,000**
Sir Dorabji Tata Trust, India
- 2007–12 **Inspire Fellowship | INR 287,500**
Department of Science & Technology, India
- 2010 **Summer Research Fellowship | INR 12,000**
Indian Academy of Sciences, India
- 2010 **Spirit of Invention Award | INR 5,000**
National Chemical Laboratory, India

TEACHING EXPERIENCE

RESEARCH ANALYSIS IN PSYCHOLOGY | TEACHING ASSISTANT
August 2018 – December 2018 | University of Georgia

COGNITIVE NEUROSCIENCE | INSTRUCTOR OF RECORD
July 2018 | University of Georgia

RESEARCH ANALYSIS IN PSYCHOLOGY | TEACHING ASSISTANT
January 2018 – May 2018 | University of Georgia

ANIMAL COGNITION & PERCEPTION | GUEST LECTURER
March 2018 | University of Georgia

SENSATION & PERCEPTION | GUEST LECTURER
October 2017 | University of Georgia

RESEARCH DESIGN IN PSYCHOLOGY | TEACHING ASSISTANT
August 2017 – December 2017 | University of Georgia

COGNITIVE PSYCHOLOGY | TEACHING ASSISTANT
Jan 2017 – May 2017 | University of Georgia

PHYSIOLOGICAL & COMPARATIVE PSYCHOLOGY | TEACHING ASSISTANT
August 2016 – December 2016 | University of Georgia

PSYCHOPHARMACOLOGY | TEACHING ASSISTANT
June 2016 – July 2016 | University of Georgia

ANIMAL COGNITION | GUEST LECTURER
January 2016 – May 2016 | University of Georgia

ELEMENTARY PSYCHOLOGY | TEACHING ASSISTANT
August 2015 – May 2016 | University of Georgia

STATISTICS | GUEST LECTURER
January 2013 – May 2013 | University of Mysore

GRADUATE MENTORSHIP

- 2022 **Kolby Brink, Anaelle E. Charles, Alli Grunkemeyer, Seung Kyeom Kim, Maria E. K. Manifrenti, & Tyler Wiles**
Biomechanics, University of Nebraska at Omaha
- 2022 **Hana Chahid & Peining Li**
Doctor of Physical Therapy (DPT), Northeastern University

UNDERGRADUATE MENTORSHIP

- 2019-20 **Andrea Smith**
Bioengineering Major, Northeastern University
- 2019 **Holden Lalor**
Bioengineering Major, Northeastern University
- 2019 **Yael Lissack**
Bioengineering Major, Northeastern University
- 2018-19 **Sarah Cutts**
Psychology & Neuroscience Major, University of Georgia
- 2018 **Pakeeza A. Hafeez**
Psychology & Biology Major, University of Georgia
- 2018 **Peyton Niebanck**
Fisheries and Wildlife Major, University of Georgia
- 2018 **Ryan Chen**
Kinesiology Major, University of Georgia
Ryan received **Michael E. Penland Family Award** for his research project
- 2018 **Terrence R. McHugh**
Kinesiology Major, University of Georgia
- 2017-18 **James D. Connors**
Psychology & Communications Major, University of Georgia
James received **William T. James Award** given to an Outstanding Senior Major in Psychology
- 2017 **Carlos R. Corea**
Linguistics & Psychology Major, University of Georgia
- 2017 **Lillian A. Stamps**
Psychology Major, University of Georgia
- 2017 **Tinikki C. Gibbs**
Psychology Major, University of Georgia
- 2016 **Sophie A. Barton**
Psychology & Neuroscience Major, University of Georgia
- 2015-16 **Ashley Myers**
Biology & Psychology Major, University of Georgia
- 2015-16 **Hiba Hafeez**
Psychology Major, University of Georgia
- 2015-16 **Lindsey K. R. Roles**
Psychology & Neuroscience Major, University of Georgia
- 2015 **James Y. Hammers**
Psychology Major, University of Georgia

- 2015 **Leslea G. Motley**
Psychology Major, University of Georgia
- 2012-15 **Ravindra P. Nettimi**
Biology Major, Indian Institute of Science Education and Research Pune
- 2012-15 **Nisarg Desai**
Biology Major, Indian Institute of Science Education and Research Pune

REFEREES

NICK STERGIU | PROFESSOR AND FOUNDING CHAIR
Biomechanics, University of Nebraska at Omaha
nstergiou@unomaha.edu | +1 402.350.6809 | 6160 University Dr S, Omaha, NE 68182

DAMIAN G. KELTY-STEPHEN | ASSISTANT PROFESSOR
Psychology, State University of New York New Paltz
