11th Human Movement Variability Conference & 7th Great Plains Biomechanics Conference May 14th and 15th, 2026

Exhibitor/Sponsorship Packet

What is the Human Movement Variability Conference?

The Human Movement Variability conference is an annual conference organized by the Center for Research in Human Movement Variability and the Department of Biomechanics. The goal of the conference is to be a student-centered meeting where the latest in human movement variability research is presented and discussed.

What is the Great Plains Biomechanics Conference?

The Great Plains Biomechanics Conference coincides with the Human Movement Variability conference. The goal of this conference is to provide a student-centered meeting where the growing field of biomechanics is explored. Topics include cardiovascular biomechanics, rehabilitation, sports biomechanics, neuromechanics, and many others explored through poster and podium sessions and a keynote speaker. The target demographic includes students, faculty, and clinicians from states such as Nebraska, Iowa, Kansas, South Dakota, North Dakota, Minnesota, Missouri, and Oklahoma.

Who attends the conference?

The conference averages around 100 attendees yearly and comprises students, investigators, academicians, and clinicians. This year we are very excited to host our conferences at the Scott Conference Center!
