A Message from the Chair:

Summer session is underway and we are excited to work together so you become the best professional counselor possible. Although the pace is quick, we remind you the goal is to learn as much as possible rather than merely completing the requirement during the hurried summer. Also, remember to care for yourself and plan adequate study time to prepare for your classes.

Congratulations to the 31 Counseling students who completed their degrees this Spring! I especially appreciated their involvement in the actual commencement ceremony, as all but 5 attended! We are proud of the work you've completed and excited to see where your careers lead. I would like to give a special and public **thank you** to Michael Robbins, who has provided exceptional contributions to the Department as a Graduate Assistant these past two years. As with all of our Alumni, we hope you stay in contact and stop by to visit often.

We are pleased that 37 newly admitted students will be joining us in the classroom this Summer and Fall. Please join the faculty in helping to welcome those new faces. As always, the quality of individuals applying to the program is very high so we are excited to work with each of you in the classroom, clinic and community sites.
