COGNITIVE NEUROSCIENCE
OF OBESITY
Featuring Dr. Cary Savage
University of Nebraska-Lincoln

November 16, 2018
12:00 - 1:15 pm | H&K112
Parking Available in Lot T

ABOUT DR. SAVAGE
Dr. Savage received his Ph.D. in clinical psychology from Oklahoma State University. He completed an internship in clinical psychology and postdoctoral fellowships in neuropsychology and functional neuroimaging at the Massachusetts General Hospital (MGH)/Harvard Medical School. He is the Director of the Center for Brain, Biology and Behavior, and a Chancellor’s Professor of Psychology, at the University of Nebraska-Lincoln. He has published over 130 research papers and review articles and serves on editorial boards and numerous study sections and expert panels. Dr. Savage’s research uses functional neuroimaging techniques to identify biomarkers that predict responses to interventions and progression or recovery from neurologic illness.

LEARNING OBJECTIVES
• Discuss background of the obesity problem
• Review neuroimaging studies highlighting the brain’s role in obesity
• Discuss future directions and potential interventions

The presenter Cary Savage, PhD has no financial conflict of interest to disclose. Members of the planning committee, Nick Stergiou, Ph.D., Jeffrey Kaipust, M.S., Angela Collins, M.A., Laura Campbell, B.S., and Jackie Farley, CPP have no financial conflict of interest to disclose.
