NATURAL MATERIALS AND ANTIOXIDANTS TO TREAT LOW BACK PAIN

Featuring Dr. Rebecca Wachs
University of Nebraska at Lincoln

April 6, 2018 | 12:00 - 1:15 pm | H&K112
Parking Available in Lot T

ABOUT DR. WACHS

Dr. Wachs is an assistant professor in the Biological Systems Engineering Department at the University of Nebraska - Lincoln. She completed her doctoral degree in mechanisms of low back pain at Rensselaer Polytechnic Institute, and her postdoctoral work at the University of Florida in neural engineering. Dr. Wachs current work focuses on the creation of novel therapeutics to help regenerate the intervertebral disc of the spine, and modulate pain.

LEARNING OBJECTIVES

• Discuss current challenges in the treatment of low back pain.
• Explain the role of undesired nerve growth and sensitization in low back pain.
• Describe novel approaches to prevent undesired nerve growth and sensitization.

The presenter, Rebecca Wachs, Ph.D., and the planning committee, Nick Stergiou, Ph.D., Jeffrey Kaipust, M.S., Angela Collins, B.S., and Jackie Farley, CPP have no financial conflict of interest to disclose.

ACCREDITATION STATEMENT The University of Nebraska Medical Center, Center for Continuing Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CREDIT STATEMENT The University of Nebraska Medical Center, Center for Continuing Education designates this live activity for a maximum of 1.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
