LESSONS LEARNED FROM 15 YEARS OF CENTER FOR NEBRASKA CENTER FOR VIROLOGY COBRE

Featuring Dr. Charles Wood
University of Nebraska, Lincoln / Nebraska Center for Virology

August 28, 2015 | 12:00 - 1:30 pm | HPER 112

ABSTRACT
Navigating the ins and outs of the Centers of Biomedical Research Excellence (COBRE) is often complex and challenging at best. Dr. Wood will be sharing his many experiences, good and bad, through 15 years of work at the Nebraska Center for Virology COBRE.

ABOUT DR. WOOD
Dr. Charles Wood is the Director of the Nebraska Center for Virology at the University of Nebraska, Lincoln. He is internationally recognized as a leader in molecular virology and HIV/AIDS epidemiology. His contributions include extensive work building scientific capacity in the US, China, and Zambia as well as raising public scientific understanding.
