The mission of the Topics in Education Symposium (TIES) is to foster discussion, inspire innovation, and provide educators with a regional forum to disseminate research findings, share best practices, discuss current educational topics, and provide other innovative thinking and creative activities across all areas of education. **The focus this year is STEM.**

**REGISTRATION**

Reservations are $40, which includes materials and dinner. Visit [https://goo.gl/paus8r](https://goo.gl/paus8r) to pay online and complete your registration.

**SECTIONS & POSTERS**

Experience Omaha’s STEM community in action. Hands-on and research sessions from our Omaha STEM Ecosystem experts including Bricklayer, Prairie STEM, Omaha Henry Doorly Zoo, Eureka!, Body Model K12, Active Learning Partners, Math with An Architect, Early Childhood STEM, VR STEM, and STEM leaders from OPPD, MCC Innovation Campus, higher education/K12 partnerships will lead the evening. More partners are being added each day.

Come and network with your Omaha STEM partners in a relaxed and informative evening setting. TIES is a collaborative event made possible with support from The Omaha STEM Ecosystem, chapter #0116 of PDK, the University of Nebraska at Omaha College of Education, and the quality research, best practices, and creative activities of our area education community.
