CPAR’s formal relationship with the U.S. Census Bureau gives it first-hand knowledge about the decennial census and ongoing survey efforts. CPAR helps Nebraskans learn about the latest population trends and new data products, provides engagement opportunities, and generates statewide connections/collaborations between elected officials, planners, educators, the business community, media, policymakers, and others. We are so thankful for their creative, top quality, and team approach while serving as a key driver in the 2020 Census leading Nebraska to the 4th best self-response in the country.

Senator Matt Williams
District 46, Nebraska Legislature

Working with CPAR on a statewide youth survey resulted in better data and gave the project legitimacy we wouldn’t have had otherwise. Bottom line, CPAR’s partnership allowed NCF to give Greater Nebraska a tool that can change the trajectory of population growth in the next generation.
