Website: alz.org/nebraska

The Alzheimer's Association is the leading voluntary health organization in Alzheimer's care, support and research. Our mission is to eliminate Alzheimer's disease through the advancement of research; to provide and enhance care and support for all affected; and to reduce the risk of dementia through the promotion of brain health. Our vision is a world without Alzheimer's.

In Nebraska, the Alzheimer's Association offers free education seminars, caregiver support groups, early stage support groups, early stage social engagement programs, and access to an emergency response safety service. The organization also increases awareness of Alzheimer's disease and advances research funding through signature community events across the state, including our largest event - the Walk to End Alzheimer's.
