

UNIVERSITY OF NEBRASKA AT OMAHA GERONTOLOGY

Do You Have The Cour**AGE** to Care?

Hospice House

THE JOSIE HARPER
RESIDENCE

Hospice House is home to compassionate, comfortable end-of-life care, on-going support for families, and community-wide educational outreach. Although we serve all ages, the majority of our residents are 60 years and older. We are a unique partnership between Omaha's expert healthcare leaders with generous support from the community. There is not another place like it in the county with four major health care providers in the region coming together under one roof to provide care. Nebraska Medicine, CHI Health, Methodist Hospital and the Visiting Nurse Association are equal partners in Hospice House.

We recognize and honor everyone who comes through our doors, and strive to exceed expectations by providing excellent, compassionate care. While individual needs, family dynamics, and illness all differed, residents and their families come to Hospice House with a desire for hospice care to be provided by clinically qualified and certified hospice/palliative care professionals 24 hours per day in a home-like residential setting.

Hospice redefines hope and helps the individual and family reclaim the spirit of life. Although end-of-life care can be a difficult discussion, it is important for everyone to consider all of the options available to promote quality of life and allow one to make the most of the time they have.

Residents at Hospice House:

- Experience life to the fullest each day by focusing on comfort rather than cures.
- Work with our partner interdisciplinary teams from CHI Health and VNA to meet physical, emotional, social, and spiritual needs.
- Receive gentle, compassionate care every day, including services like meal and medication assistance, bathing, skin care, oral care, among others.
- Enjoy personal, hands-on care from experienced hospice professionals and volunteers.
- Spend precious, quality time with loved ones, create moments of joy, share stories and memories, and celebrate life.

At Hospice House, we promote quality of life and dignity in death.
