Issues in Aging: Rehabilitative Design
GERO 4350-001/8356-001

Fascinating course for Spring 2020!

Thursdays, 4:15-6:55pm

Instructor: Meaghan Walls, MSBE, ATP
President/CEO of Assistology
meaghanwalls@unomaha.edu

This class is perfect for students who are majoring in: Gerontology, H&K, Engineering, Biomechanics, Pre-Health, Design, Social Work, Public Administration, Special Education, Medical Humanities, or Psychology.

The purpose of this interdisciplinary course is to provide students with a greater appreciation of understanding impairment as a platform for their professional activities. This course will also provide an understanding of how Rehab Engineering, Universal and Inclusive Design and the implementation of Assistive Technology allow for greater levels of independence and quality of life for all members of our community, with an emphasis on the applications in the aging process.
