

MICROCREDENTIAL

FOUNDATIONS OF RESTORATIVE JUSTICE PRACTICES

UNIVERSITY OF
Nebraska
Omaha

Course Description

This highly interactive experience will provide foundational knowledge and skills to those seeking understanding and growth in restorative justice practices. Through an introduction of theory and hands on skill practice, participants will deepen their understanding of why restorative practices are essential in all spaces. The heart of this work is building and strengthening relationships and knowing how to repair those relationships when harm occurs. Participants will leave this course with skills to begin using restorative justice approaches with clients, in their workplaces, and personal lives.

Learning Objectives

1. Understand the evolution of restorative practices across the world.
2. Apply the concepts of the Social Discipline Window in their personal and professional spaces.
3. Utilize restorative statements and questions.
4. Understand the role of social emotions in restorative justice interventions.
5. Identify the restorative practice continuum.
6. Facilitate proactive and responsive circles.
7. Create an individual implementation plan.
8. Understand the impact on victims participating in the process

Target Learner

The target learner for this course is anyone working in the human services or education field.

***The capacity for the course is 20 people**

Price

\$599.00
