Education

- 2010 **Ph.D., Criminal Justice**
Rutgers University
Newark, NJ
- 2004 **Master of Arts, Criminal Justice**
Rutgers University
Newark, NJ
- 2002 **Bachelor of Arts, Sociology & Psychology**
University of Iowa
Iowa City, IA

Professional Employment

- 2020-
Present *Professor*, University of Nebraska - Omaha
School of Criminology and Criminal Justice
- 2020-
Present *Associate Director*, University of Nebraska - Omaha
Nebraska Center for Justice Research
- 2020-
2023 *Associate Professor*, University of Nebraska - Omaha
School of Criminology and Criminal Justice
- 2010-
2020 *Associate Professor*, Washington State University,
Department of Criminal Justice and Criminology
- 2011-
2020 *Director*, Washington State Institute for Criminal Justice Research
- 2018-
2020 *Graduate Director*, Washington State University, Washington
Department of Criminal Justice and Criminology
- 2008-
2010 *Senior Research Associate*, Center for Court Innovation, New York, New York
- 2005-
2008 *Senior Research Associate*, National Development & Research Institutes, Inc. New
York, New York
- 2003- *Research Associate*, Center for Justice and Mental Health Research

2005 School of Criminal Justice, Rutgers University, Newark, New Jersey

Grants & Funded Initiatives – Running Total = \$5,435,098

Co-Investigator. December, 2022. NDCS PROGRAM EVALUATION. This project will evaluate the Nebraska Department of Correctional Research (NDCS) evidence-based programs used in the reduction of recidivism. This is a 36-month contract funded by NDCS for \$852,475.

Principal Investigator. August, 2022. REVIEW AND REVALIDATION OF THE BUREAU OF PRISONS NEEDS ASSESSMENT SYSTEM. This project will assess the validity of the Federal Bureau of Prison’s (BOP) SPARC-13 needs assessment. This is a 36-month contract funded by the National Institute of Justice for \$85,000.

Principal Investigator. July 2022. WAONE REVALIDATION AND UPDATE. This project sought to examine the validity of the Washington State Department of Corrections (WADOC) Offender Needs Evaluation. Additionally, an updated version of the tool will be constructed with WADOC data. This is a 12-month contract funded by the WADOC for \$250,000.

Principal Investigator. October 2021. MULTI-STATE RESEARCH ON JUVENILE OFFENDING. Using a 15-state US representative sample, the study sought to examine what factors predict recidivism generally, by sub-group, outcome, state, and other important moderators. This is a 36-month grant funded by the National Institute of Justice for \$599,981.

Principal Investigator. June 2021. STRONG-R REVALIDATION AND UPDATE. This project sought to examine the validity of the Nebraska Department of Correctional Services’ Static Risk and Offender Needs Guide – Revised (STRONG-R). Additionally, an updated version of the tool will be constructed with NDCS data. This is a 12-month contract funded by the Nebraska Department of Correctional Services for \$125,488.

Principal Investigator. June 2021. NEBRASKA CLASSIFICATION PROCESS. This project sought to examine the Nebraska Department of Correctional Services to used of classification, programming and bed management in an effort to identify areas of reduced logistical flow as a source of overcrowding. This is a 14-month contract funded by the Nebraska Department of Correctional Services for \$200,000.

Principal Investigator. April, 2020. BASE RATE PROJECT. This project will create criminal justice base rates for all citizens in a majority of US states. This is an 18-month contract funded by the National Institute of Justice for \$133,250.

Principal Investigator. August 2020. MPACT Washington State Administrative Office of the Courts. This project sought to retain services to assess in implementation of the MPACT in Washington State. This is a 12-month contract funded by the Washington State Administrative Office of the Courts for \$6,000.

Principal Investigator. June 2020. LANCASTER (NE) COUNTY DIVERSTION RISK ASSESSMENT. This project sought to develop a juvenile risk-needs assessment for Lancaster County, NE. This is a 12-month contract funded by Lancaster County for \$60,000.

Principal Investigator. June 2020. KING COUNTY PRINS REVLAIDATION. This project sought to revalidate the PRINS pretrial risk assessment for King County Washington. This is a 12-month contract funded by King County for \$52,000

Principal Investigator. July, 2019. DOMESTIC VIOLENCE RISK ASSESSMENT. This project sought to develop domestic violence risk assessments for the Washington State DOC and King County. This is a 24-month contract funded by the Washington State Legislature for \$218,000.

Principal Investigator. April, 2019. FIRST STEP ACT: ASSESSMENT DEVELOPMENT. This project will create a recidivism prediction instrument to be used by the Federal Bureau of Prisons (BOP) for the purposes of predicting those offenders eligible for early release. This is a 12-month contract funded by the National Institute of Justice for \$75,900.

Principal Investigator. April, 2019. PRISON CLASSIFICATION. This project will create a prison classification system for the Washington State Department of Corrections. Infraction prediction models will be constructed for male and females. Bothe initial and reclassification models will be developed. This is a three-year project for \$99,458.

Principal Investigator. April, 2018. JUVENILE JUSTICE REPORTING. This project provides annual and trend analysis of key juvenile justice findings in Washington State. The findings are compiled into a report to be presented to Governor Jay Inslee. This contract was sponsored by the Office of Juvenile Justice. This is a one-year project for \$20,000.

Principal Investigator. March, 2018. THERAPEUTIC TREATMENT COURTS EVALUATION. This project provides a qualitative, quantitative and cost-benefit evaluation of the Snohomish County Therapeutic treatment courts. This contract was provided to Whitworth University via Snohomish County. WSU is provided the sub-award to provide qualitative and quantitative evaluations of the project. This is a one-year project for \$47,585.

Principal Investigator. September, 2018. JAIL TRANSITION PATHWAYS COMMUNITY HUB. BJA Second Chance Act. This is a 36-month grant, focused on implementing “smart re-entry” programs for clients that are released from the Spokane County jail. The first year of the project will require Spokane County and the City of Spokane to develop a Reentry Task Force to build a planning and implementation guide, which will serve as a research and action plan for expanding reentry services in the Spokane region. The project will fund the Jail Transitions Pathways Community HUB project for the Spokane region. The Pathways Community HUB is an innovative service delivery models that focuses on reducing identifiable risk factors for high-risk individuals and populations through care coordination. The Pathways Hub relies on community health workers (CHW) who will engage with participants’ pre-release, complete a comprehensive assessment of health, social, behavioral health, economic, and other issues, and then work with them in the community to address those issues. WSU is provided the sub-award to provide qualitative and quantitative evaluations of the project. This is a three-year project for \$72,000.

- Principal Investigator. September, 2017. OPTIMIZING JUVENILE ASSESSMENT PERFORMANCE. OJJDP FY 2017 Field-Initiated Research and Evaluation Program (CFDA # 16.540). This project utilizes over a million youth assessed on the same juvenile risk assessment and tracked for recidivism. The study seeks to identify jurisdiction variations in assessment performance and outline customizable solutions for delinquency prevention through an optimization of risk assessment performance. This is a one-year project for \$124,900.
- Principal Investigator. August, 2017 CITY OF SPOKANE COMMUNITY COURT EVALUATION. This research is focused on assessing the current internal operations and outcomes of the City of Spokane Community Court. The core focus of this evaluation is a process evaluation aimed at assessing if Community Court policies and procedures are being followed as intended. The outcome evaluation will determine if individuals that participate in the Community Court have stronger outcomes than a matched comparison groups. This is a one-year project for \$49,000.
- Principal Investigator. August, 2017 CITY OF SPOKANE COMMUNITY COURT ASSESSMENT. This research is focused on assessing the current community court risk assessment utilized by the City of Spokane Community Court. The core focus of this evaluation is a process evaluation aimed at assessing if Community Court policies and procedures are being followed as intended and any additional positive benefits from it current or modified form. This is a one-year project for \$27,219.
- Principal Investigator. April, 2016. Needs and Responsivity Assessment Development of POSITIVE ACHIEVEMENT CHANGE TOOL (PACT). Funded by the Washington State Administrative Office of the Courts. This project is an expansive endeavor to create needs and responsivity assessment with superior performance for predicting juvenile offending and identifying appropriate programming within the state of Washington. This is a one-year project for \$62,000.
- Principal Investigator. December, 2016. The Development of the King County Risk Assessment. Funded by King County. This project seeks to develop a version of the Static Risk Offender Needs Guide – Revised (STRONG-R) for a King County pretrial population in Washington. This is a one-year project for \$240,000.
- Principal Investigator. April, 2016. The Development of the Spokane County Risk Assessment. Funded by Spokane County. This project seeks to develop a version of the Static Risk Offender Needs Guide – Revised (STRONG-R) for a Spokane County pretrial, probation, and jail populations in Washington. This is a one-year project for \$269,000.
- Principal Investigator (with Amelie Pedneault). April, 2016. Evaluation of the Washington State Department of Corrections Second Chance Act Continuum of Care Program. Funded by the Washington State Department of Corrections this research examines findings from the statewide implementation of Washington State Department of Corrections (WADOC) Continuum of Care Program. The program is designed to help transition offenders from the institution to the community via a transition specialist, a community corrections officer (CCO), and other service providers. This team attempts to contact each offender prior to release from the institution and then again in the community. Using a quasi-experimental design, this one-year study proposes to compare a cohort of program participants with a propensity score matched comparison sample released during the study period. Study outcomes examined will include: community sanctioned jail/prison days, reconvictions, program utilization, and correctional and associated costs. Potential positive findings could reveal a replicable and easily scalable program for WADOC releases across the state, and likely

to create sustainable reductions in incarceration due to community corrections sanctioning. This is an 18-month contract for \$76,000.

Principal Investigator (with Amelie Pedneault). March, 2016. SEX OFFENDER REGISTRATION PROJECT. Funded by the Washington State Office of Financial Management (OFM) this research will examine variations in sex offender registry practices across counties in Washington State. A literature review of promising practices will be completed. A survey of county registration practices and an online community survey will also be constructed and distributed. Recommendations for future best practices will be included at the conclusion of the study. This is a 6-month contract for \$95,000.

Principal Investigator (with Alex Kigerl). February, 2016. EDUCATION AND JUVENILE JUSTICE OUTCOMES. The research project will define, research, and report on the prior education experience and outcomes by juvenile offender sentencing type. This research project will be carried out in conjunction with the Washington State Center for Court Research (WSCCR) at Washington State University. WSICJ, in conjunction and collaboration with the WSCCR, about the prior education experience and outcomes by juvenile offender sentencing type, including Juvenile Justice Rehabilitation Administration involvement, probation only, probation and treatment, and disposition alternative. As a part of this research project, WSICJ in mapping the juvenile justice data and education data, design the research study, conduct the research and statistical analysis and support production of the outputs from the research. This is a 2-year contract for \$90,000.

Principal Investigator (with Alex Kigerl & Jacqueline van Wormer). January, 2016. WASHINGTON STATE OFFENDER RISK ASSESSMENT PROJECT. Funded by the Washington State Department of Corrections this project will assist with the implementation of the Static Risk and Offender Needs Guide assessment system (STRONG-R) risk and needs assessment. Project deliverables include training and pilot testing of the tools, assessment of inter-rater reliability, development of quality assurance procedures, and a creation of a menu of interventions to be identified an evidenced-based programs recommended by the assessment's case management functions. This 18-month project for \$185,000.

Principal Investigator (with Jacqueline van Wormer). August, 2014. EVALUATION OF WASHINGTON STATE'S SWIFT AND CERTAIN POLICY FOR COMMUNITY SUPERVISION OFFENDERS. Funded by the Lewis and John Arnold Foundation (LJAF) this study seeks to examine findings from the statewide implementation of Washington State's Swift and Certain (SAC) program. The program, modeled after the Hawaii HOPE project's application of specific deterrence principles (Hawken & Kleiman, 2009), is the first statewide effort utilizing a large felony offender population (N~10,000). This one-year project for \$75,000.

Principal Investigator (with Stephen Lee, and Jacqueline van Wormer). June, 2014. WASHINGTON STATE OFFENDER RISK ASSESSMENT PROJECT. Funded by the Washington State Department of Corrections this project is an expansive endeavor to combine collected static risk and dynamic items into a consolidated system of prediction instruments – prison infraction, recidivism and violations. To improve gender sensitivity, models are created separately for males and females. Partnering with software application specialists (Assessments.com), this project will span the development, patent, and implementation/training of the revised version of WADOC's Static Risk and Offender Needs Guide assessment system (STRONG-R). This three-year project for \$168,329.

Principal Investigator (with Jacqueline van Wormer). March, 2014. SMART SUPERVISION. Funded by the Bureau of Justice Assistance. This project seeks to implement evidenced based practices and correctional education training using a large state-wide initiative. The project will implement core correctional practices and assist in the rollout of training surrounding the STRONG Risk-Needs assessment. This is a three-year project for \$750,000.

Co-Investigator (with Jacqueline van Wormer). March, 2014. VALIDATION OF THE POSITIVE ACHIEVEMENT CHANGE TOOL (PACT). Funded by the Washington State Administrative Office of the Courts. This project is an expansive endeavor to combine collected static risk and dynamic items into a consolidated system of recidivism assessment and intervention recommendations. The outcome of this study will produce a validated risk assessment with superior performance for predicting juvenile offending within the state of Washington. This is a one-year project for \$19,086.

Principal Investigator. June, 2014. WASHINGTON STATE INSTITUTE FOR CRIMINAL JUSTICE RESEARCH ASSISTANT. Funded by the Washington State Department of Corrections this ongoing project researcher-practitioner partnership seeking to expand WSU and WADOC initiated projects. A WSU research assistant is tasked with creating and analyzing data sets on an ad hoc basis, supervised by the Director of the Washington State Institute for Criminal Justice. This is a one-year project renewed annually for \$15,915.

Principal Investigator. October, 2013. INVOLUNTARY TREATMENT ACT RISK ASSESSMENT. This project is funded by the Washington State Institute of Public Policy and is focused on the development and creation of a risk assessment to predict a variety of outcomes (i.e. hospitalizations, recidivism and commits) following the release from civil commitments. Sponsored by the Washington State Legislature and working in cooperation with the Washington State Institute for Public Policy (WSIPP), the project seeks to examine the relative risk and associated needs that impact those released from state custody following a civil commitment. With the goal of creating a risk assessment tool, WSU seeks to provide an instrument that will assist assessment providers and policy makers with needed information at the time of release from custody. This is a two-year project for \$80,000.

Principal Investigator (with Jacqueline van Wormer). October, 2013. EVIDENCE-BASED PRACTICES LEGISLATIVE PROVISOR. This project is funded by the Washington State Department of Corrections and the Washington State Legislature and seeks to investigate the use of evidence-based programming for offender populations in the state and the recommended placement and commitment to stated programming. Working in collaboration with WADOC, WSU has sought to identify, describe, and investigate the available evidence surrounding all programming used for offender populations by the WADOC. With the intended goal of recommending programs to utilize and expand, WSU seeks to create a repository of evidence surrounding offender programming that can guide the DOC's use of interventions going forward. This is a two-year project for \$250,000.

Principal Investigator. 2013. WOMEN'S RISK-NEED ASSESSMENT. Funded by the Bureau of Justice Assistance and the Washington State Department of Corrections. This project sought to investigate the use of gender responsive training and the creation of a gender specific risk

assessment for the WADOC population. Using theoretically informed modeling, this funding allowed for the creation of gender specific modeling for the WADOC's STRONG System of Assessments. This was one-year project for \$68,000.

Co-Investigator (with Jacqueline van Wormer). 2012. EVALUATION OF SNOHOMISH COUNTY THERAPEUTIC DRUG COURTS. This project funded by Snohomish County this research includes a process, outcome and cost-benefit study of the Snohomish County Adult Drug Court (ADC) and Snohomish County Family Drug Treatment Court. The evaluation is focused on assessing whether drug court participants remain crime free, complete treatment at greater rates than individuals who participate in the traditional system, and the impact of drug court participation on use of other social and health services. The cost-benefit study compares the overall operational costs of the drug court program, assesses the cost of the traditional court and treatment process, and evaluates which agencies contribute to the drug court and traditional court process and at what cost. This was a two-year project for \$200,000.

Teaching

Undergraduate Courses Taught

WSU Corrections 385 – 2010

WSU Research Methods 311 – 2010

WSU Quantitative Methods 321 – 2011, 2012, 2020

WSU Corrections (Online) 385 – 2012

Graduate Courses

UNO Risk & Needs Assessment 8850 – 2023
UNO Institutional Corrections 9170 – 2022
UNO Special Topics in Research Methods 9090 – 2021
UNO Stats III 9100 – 2021
UNO Stats II 9080 – 2020
WSU Professionalization 514 – 2019
WSU Juvenile Justice 513 – 2019
WSU Advanced Quantitative Methods 524 – 2012, 2015
WSU Intermediate Quantitative Methods 523 – 2012, 2013, 2014, 2015, 2016, 2017, 2019
WSU Foundations of Quantitative Methods 522 – 2011, 2012, 2013, 2014
WSU Foundations of Quantitative Methods 522 (online) – 2014
WSU Criminal Justice Institutions 530 - 2012

Courses Developed

UNO Institutional Corrections 9170 – 2022
UNO Special Topics in Research Methods 9090 – 2021
