DATA OVERVIEW

AUGUST 2019 MONTHLY DATA: PARTICIPATION AND COMPLETIONS

OVERVIEW

Grantees use an online data management system to submit data on participants served under their Vocational and Life Skills programming. This data is due monthly and reflects all services provided during the previous month to participants. Evaluators at the Nebraska Center for Justice Research work with grantees directly to manage data entry errors on an ongoing basis during update calls and site visits.

The current data derives from an active database, from which data is being entered and updated daily. Data values, including previously submitted information, may fluctuate depending on the duration of lag between service delivery and data entry. One common example of this is when participants begin programming near the end of the month and grantee staff do not yet have intake information to enter for participants before the next data pull date. These changes will be reflected in future monthly reports.

NOTES ON DATA

- Individuals participating in multiple programs are counted as a unique individual per grantee.
- There are some duplicate participants in this report. This is due to some participants leaving programming and subsequently returning to receive additional services. The participant data presented in this report reflects only the first participation for each grantee. Program offerings are reported for all participations.
- Program offerings with an end date past the end of the current month are considered “in progress”.
- Questions on data presented below may be directed to the Research Coordinator, Katelynn Towne, at the Nebraska Center for Justice Research (ktowne@unomaha.edu).

CONTENT AND DEFINITIONS

PARTICIPANTS SERVED

New Participants: Participants beginning programming in the specified month.

Total Served: Unique individuals served by grantee during the specified month. This is the summation of 1) participants that completed programming during the month with 2) those who have not yet completed, but who are receiving services and were listed as active during the month.

Successfully Completed: Participants who have completed overall programming during the month. Completion status is determined by grantee. Successful completions vary widely both within grantees and across grantees. Most grantees develop individualized programming plans for each participant. Therefore, curricula that results in a successful completion are not comprised of the same program offerings for every individual.

Grant Cycle 3 Receiving Programming: Unique participants served by VLS through Grant Cycle 3.

Grant Cycle 3 Successful Completions: Participants who have successfully completed overall programming through Grant Cycle 3.

PARTICIPANTS EXITING PROGRAM

This table provides information on the exit status of participants who ended their participation with a grantee during the month. The exit status totals by grantee are presented.

PROGRAM OFFERINGS

Program offerings were developed for each grantee so the evaluation may describe programming components. Each grantee provides different services, thus each has a unique catalogue of offerings. Some participants only need one offering while others may receive multiple, which may affect their total length of programming. Beyond successfully completion, program offering status describes how participants are or have participated in programming. Participants may complete one program offered, while still being actively involved in other program offerings. They will not be shown as successfully completing the grantee's program until they have completed their program plan (which includes an indeterminate number of offerings, based on need) established by the grantee. In these monthly reports, a cumulative count of participants served in each program offering is presented along with the status of those in that program offering (completed, in progress, incomplete). VLS quarterly reports provide more detailed descriptions of program offerings.
