# DATA OVERVIEW

## DECEMBER 2018 MONTHLY DATA: OVERALL PARTICIPATION AND COMPLETIONS

### OVERVIEW

---

Grantees use an online data management system to submit data on participants served under their Vocational and Life Skills programming. This data is due monthly and reflects all services provided during the previous month to participants. Evaluators at the Nebraska Center for Justice Research work with grantees directly to manage data entry errors on an ongoing basis during monthly update calls and regular site visits.

The current data derives from an active database, with live data being entered and updated daily. Data values, including previously submitted information, may fluctuate depending on changes made from data entry oversight. One common example of this is when participants begin programming near the end of the month and program staff do not yet have intake information to enter for participants before the next data pull date. These changes will be reflected in future monthly reports.

### NOTES ON DATA

---

- Individuals participating in multiple programs are counted as a unique individual for each program.
- Some participants will leave programming and then return to either finish programming they previously started or to receive additional services. These participations are not reported separately in this monthly report. The participant data reflects only the first participation in each program for completions and numbers served. Program areas are reported for all participant participations.
- Program areas with an end date past the end of the current month are switched to in progress instead of complete or incomplete. Any completions past the date will be reported in the next monthly data report.
- Questions on data presented below can be directed to Katelynn Towne at the Nebraska Center for Justice Research ([ktowne@unomaha.edu](mailto:ktowne@unomaha.edu)).

## CONTENT AND DEFINITIONS

### PARTICIPANTS SERVED

---

New Participants: The number of participants beginning programming in the specified month who were not served by the program in previous months of the grant cycle.

Total Served: The number of unique individuals served during the month by programs. This is determined by calculating the number of participants that completed programming during the month and those who have not yet completed, but who are receiving services and are listed as active during the month.

Successfully Completed: Participants who have completed overall programming during the month and programs have determined they have successfully completed. Successful completions vary widely both within programs and across programs. Most programs develop individualized plans for each participant. Therefore, successful completion does not mean the same thing for every individual.

Grant Cycle 3 Receiving Programming: The cumulative total of unique participants served by VLS through Grant Cycle 3.

Grant Cycle 3 Successful Completions: The cumulative total of participants who have successfully completed overall programming through Grant Cycle 3.

### PARTICIPANTS EXITING PROGRAM

---

This table provides information on the exit status of participants who ended their participation in the overall program during the month. The exit status selected by programs for each participant are displayed.

### PROGRAM AREAS

---

Program areas were developed for each program this grant cycle to be able to provide a more complete picture of program participation for each participant. Each program divides their programming into different areas where participants receive services. Some participants only need one service while others may receive a multitude of services which may affect their program length. Beyond successfully completing the entire program, program areas show how participants are still actively participating in programming. They may complete one program area while still being actively involved in other program areas. They will not be shown as successfully completing the program until they have completed their program plan established by the program. In these monthly reports, a cumulative count of participants served in each program area is presented along with the status of those in that program area (completed, in progress, incomplete). Participants can be served in multiple program areas. These reports will show changes over time in how participants are moving through programming. Quarterly reports will explain program areas for each program in more detail.

## GRANT CYCLE 3 PROGRAM AREAS THROUGH DECEMBER 2018

**Note:** Some programs have evolved since last reporting to include new program areas. Program updates are included above each program area table. Program area data are not available for Mid-Plains Community College because they are in the process of developing program areas with NCJR evaluators. Program area tables for these grantees will be included in future reports.

## GRANT CYCLE 3 PROGRAM AREAS THROUGH DECEMBER 2018

### METRO COMMUNITY COLLEGE (MCC)

Metro Community College added a National Career Readiness Certificate program area in March '17. MCC classes were not offered for the 2017 summer quarter due to grant funding. Many of the incomplete program areas below (3 MCC Core Courses, Career Certification) are due to the break in programming in those areas. These participants were closed out and MCC will add in another program participation if they continue these programs in the future. Trauma Informed Peer Support began in February '18. Always Growing was added as a new program area in March '18. A continuation of Always Growing, Always Growing II, was started in April '18. Job Readiness and Orientation were also added as new program areas in April '18.
