DATA OVERVIEW

MARCH MONTHLY DATA: OVERALL PARTICIPATION AND COMPLETIONS

OVERVIEW

Grantees use an online data management system to submit data on participants served under their Vocational and Life Skills programming. This data is due monthly and reflects all services provided during the previous month to participants. Evaluators at the Nebraska Center for Justice Research work with grantees directly to correct any data errors on an ongoing basis during monthly update calls and site visits.

Data presented below is from the monthly data pulls. Because this data comes from an active database with live data being entered and updated daily, data, including previously submitted information, may fluctuate depending on changes made from data entry oversights. These changes will be reflected in future monthly reports.

NOTES ON DATA

Individuals participating in multiple programs are counted as a unique individual for each program.

Some participants will leave programming and then return to either finish programming they previously started or to receive additional services. These participations are not reported separately in this monthly report. The participant data reflects only the first participation in each program for completions and numbers served. Program areas are reported for all participant participations.

Program areas with an end date past the end of the current month were switched to in progress instead of complete or incomplete. Any completions past the date will be reported in the next monthly data report.

Questions on data presented below can be directed to Johanna Peterson at the Nebraska Center for Justice Research (jpeterson@unomaha.edu).

CONTENT AND DEFINITIONS

PARTICIPANTS SERVED

New Participants: The number of participants beginning programming in the specified month who were not served by the program in previous months of the grant cycle.

Total Served: The number of unique individuals served during the month by programs. This is determined by calculating the number of participants that completed programming during the month and those who have not yet completed, but who are receiving services and are listed as active during the month.

Successfully Completed: Participants who have completed overall programming during the month and programs have determined they have successfully completed. Successful completions vary widely both within programs and across programs. Most programs develop individualized plans for each participant. Therefore, successful completion does not mean the same thing for every individual.

Grant Cycle 2 Receiving Programming: The cumulative total of unique participants served by each program during Grant Cycle 2 (beginning July 1, 2016).

Grant Cycle 2 Successful Completions: The cumulative total of participants who have successfully completed overall programming during Grant Cycle 2 (beginning July 1, 2016).

PARTICIPANTS EXITING PROGRAM

This table provides information on the exit status of participants who ended their participation in the overall program during the month. The exit status selected by programs for each participant are displayed.

PROGRAM AREAS

Program areas were developed for each program this grant cycle to be able to provide a more complete picture of program participation for each participant. Each program divides their programming into different areas where participants receive services. Some participants only need one service while others may receive a multitude of services which may affect their program length. Beyond successfully completing the entire program, program areas show how participants are still actively participating in programming. They may complete one program area while still being actively involved in other program areas. They will not be shown as successfully completing the program until they have completed their program plan established by the program. In these monthly reports, a cumulative count of participants served in each program area is presented along with the status of those in that program area (completed, in progress, incomplete). Participants can be served in multiple program areas. These reports will show changes over time in how participants are moving through programming. Quarterly reports will explain program areas for each program in more detail.
