Using Excel to Make and Show Data Comparisons
September 26, 2018 | 1:00 P.M.–3:00 P.M. | 219 CPACS

In this hands-on workshop, learners will gain skills to analyze and graph pretest and posttest data, and grouped data. Learners will meet in a computer lab, watch a demonstration, and then practice analyses and graphs. Basic Excel skills are required.

Using Data Reporting to Tell Your Story
October 24, 2018 | 1:00 P.M.–3:00 P.M. | 219 CPACS

Be inspired, gain skills, and prepare reports that are simple enough for anyone to understand, yet powerful enough to tell your story. In this hands-on workshop, learn how to develop meaningful reports in PowerPoint that are designed for your intended audience and utilize report layout best practices.

Realistic and Strategic Evaluation Plans
November 14, 2018 | 1:00 P.M.–3:00 P.M. | 127 CEC

Using the CDC Evaluation Framework, learners will draft an evaluation plan for their organization that is realistic and strategic. Learn and apply the six steps to this framework, and leave with a clear action plan.
