Culturally and Linguistically Appropriate Services (CLAS) Training

October 25, 2019 | 9:00 A.M. – Noon
Lifelong Learning Center | Northeast Community College | Norfolk NE

CLAS standards are federally mandated for mental or physical health providers receiving federal funding. However, because CLAS standards have not yet been mandated at the state level in Nebraska, increasing numbers of mental and physical health providers are at risk of violating CLAS, which decreases accessibility to quality care for priority populations.

Learning Objective:
In this transparent CLAS training, mental and physical health professionals will learn about CLAS and practical methods to implement CLAS standards to provide more equitable health care.

Cost: $15 (optional: $10 additional for 3 social work and mental health CEUs)
