

CLEAN TRANSPORTATION COMMUNITY FORUM

WEDNESDAY, SEPTEMBER 13TH, 7:00–8:30 PM
UNO BARBARA WEITZ COMMUNITY
ENGAGEMENT CENTER
6001 DODGE STREET | ROOMS 230/231

The transportation industry plays a key role in decreasing our dependence on fossil fuels. Join us as we bring together clean energy experts to discuss the latest options in clean transportation including multi-modal transit systems, bike and car sharing systems, electric and alternative fuel vehicles and more. Learn what is happening nationally and in the Omaha community and how you can get involved. These new methods of transportation not only address climate change, they enhance quality of life.

MODERATOR:

Dr. David Corbin

UNO Emeritus Professor of Health Education
and Public Health, Vice Chair NE Sierra Club
