

UNO LIBRARIES

PUERTO RICO MAPATHON

October 4, 2017 | 11:00 A.M. – 1:45 P.M. | Criss Library Rm. 112

Contribute your time to open source mapping to aid relief efforts in Puerto Rico.

Following Hurricane Maria, people globally are using OpenStreetMap to help provide the Red Cross with data needed for disaster response. The Red Cross has identified tasks we can help with that aid their relief efforts. UNO Libraries is hosting a mapathon to help students, staff, and faculty contribute. During the mapathon, we will work together to help provide data that the Red Cross needs.

No mapping experience or knowledge of the local geography is required. You are free to come and go as you need—this is intended to be a drop-in event. If you want to help but only have a few moments, please feel free to stop by.

Please RSVP on MavSync. Feel free to bring your laptop, but computers will also be available for use in the lab. No software installation is required.
