

TESTING CENTER

INCLEMENT WEATHER POLICY

Please check the UNO Emergency Site for campus wide announcements and the Inclement Weather Policy.

If the campus is closed, UNO Testing Center is also closed. You may reach recorded official information about campus closings at 402-554-2255. Local radio or television stations will also be notified.

If you are registered for a national test (for example: ACT, LSAT, MPRE, or Praxis), you may call the national testing company for updates regarding which test centers are open or closed. Look on your admission ticket or the testing company's website for contact information.

Safety comes first. Please don't endanger yourself by driving in unsafe conditions, even if the campus is open.

If the weather is less than perfect but the campus is open, we will attempt to administer all scheduled tests. Again, please remember that the safety of both students and staff is far more important than any test administration. We reserve the right to cancel test administrations if road conditions are too dangerous for staff members to report to the office.

If you are registered for a national test (such as ACT, LSAT, MPRE, or Praxis) that is cancelled, the national test company will decide if a makeup date will be offered.
