Implicit Bias –
Further Discussion and Implications

Wed., October 25, 2017 | 1:00 PM | Community Engagement Center 231

Continuing the discussion on implicit bias, Ferial Pearson and Kerry-Ann Escayg will facilitate this discussion and dialogue session to promote deeper understanding of bias and its connection to pedagogy.

Participants are expected to have completed the implicit bias tests available from Project Implicit (https://implicit.harvard.edu/implicit/takeatest.html). While results of these tests will not be shared, they will be used to inform discussion.

The Center for Faculty Excellence is sponsoring a series of workshops and activities throughout this academic year to highlight strategies and promote dialogue for creating civil, safe, and inclusive classrooms at UNO.
