

What is Digital Measures?

Digital Measures is the name of the company that has developed and supports the "Activity Insight" product that UNO is currently using to collect information about faculty accomplishments and professional activities.

Once my information is in the system, how can the data be used?

The system is designed for an individual to enter items and for that information to be used in multiple ways. The most common expected uses for information in the system would include allowing faculty to generate their annual reports and RPT documentation. Furthermore, UNO is developing other uses that would allow the information to be displayed in a variety of ways to maximize its impact.

Important Websites:

Digital Measures UNO User's Guide (<http://www.unomaha.edu/institutional-effectiveness/digital-measures/>)

The user's guide will provide basic information about UNO's Digital Measures system as well as step-by-step instructions for entering data into Activity Insight and running reports for Annual Review as well as an FAQ.

Digital Measures System Login (<http://digitalmeasures.unomaha.edu>)

You will need use the same UNO Net ID (*e.g. jdoe*) and password you use for other systems such as Outlook and Blackboard.
