Dr. Cynthia Ganote will lead an interactive workshop for faculty and administrators where key concepts associated with microaggression will be defined and discussed. Microresistance strategies will be highlighted with activities used to demonstrate how to apply these strategies throughout the service learning cycle.

By the end of this workshop, participants will be able to integrate strategies into their syllabus to share what works for their classrooms and explore new ways to better prepare students for service learning work that uses an asset based approach.

Lunch will be provided.

Sponsored by the Center for Faculty Excellence and the Service Learning Academy.
