Create a Module

A Module is a way to organize the different pieces of content (Pages, Assignments, Quizzes, Files, Discussions, etc.) in one place. Refer to this video for an overview of Modules: Modules: Creation and Management (Instructors)

1. Click on Modules on the left side of your screen.

2. Click on the + Module button at the top right corner of your screen.

4. OPTIONAL: If there are any prerequisites that students need to complete, follow this Guide: How do I add prerequisites to a module?

5. Click Add Module. Your new module will be added to the Modules page. Any additional modules you create will be added below existing modules.
