WELCOME

We're glad you're here, exploring your Global Course options.

Global Courses are classes offered by UNO Education Abroad + UNO Academic Departments that give students opportunities for international experiences.

We've divided the courses into three sections: Virtual, May Term, and Summer. You can read more about virtual programs and how they work on page 7. May Term and Summer programs are UNO courses that include a travel component either in May as part of the spring semester, or in June, July, or August as part of the summer term.

As you look through this book and see the programs available to you in 2021, you can get more in-depth information at any time by clicking the VIATRM links throughout the pages. These links will take you to the program information and application page online.

If you have questions, please reach out! You will find UNO Education Abroad's contact information on the final page, and we'd love to hear from you. Don't hesitate to drop us a line. Enjoy exploring these Global Courses!

WHAT IS A VIRTUAL GLOBAL COURSE?

A Virtual Global Course is a unique opportunity to study 'abroad' without leaving home. These courses are specially designed so that you get an inside look at your chosen field from a specific international perspective. Virtual Global Courses connect you with experts and locals from your program's host country or countries, providing first hand knowledge and cultural insight.

Virtual Global Courses are also an economical option that makes it easy to include an international experience during your college career. The added cost is minimal compared to the expense of traveling internationally, and doesn't require time off from responsibilities such as work and family. If you're looking for an affordable yet authentic way to experience global learning, virtual global courses may be the right fit!
