COURSE INFORMATION: BIOLOGY OF SOUTH AFRICA (BIOL 3680)

Undergraduate & Graduate  |  Spring 2020  |  Lecture in Spring, Lab in Summer
May 30 - June 14 in South Africa

Take a deep dive into the major plants and animals of East Africa through hands-on experiences and visits to national parks. Students will have the opportunity to observe the flora and fauna of the African Savannah, partake in research on elephant reproductive biology, and be immersed in African cultural dancing, food, and storytelling. While in South Africa, the class will visit Johannesburg, Hoedspruit, Kruger National Park and Skukuza while working with Nebraska non-profit For Elephants, Inc.
