[MORE DETAILS](#)

What are SBIR and STTR Programs?

The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are one of the largest sources of early-stage capital for innovative small companies in the United States. These programs allow US-owned and operated small businesses to engage in federal research and development (R&D) that has a strong potential for commercialization.

In Fiscal Year 2015, NIH's SBIR and STTR programs will invest over 780 million dollars into early-stage, health and life science companies that are creating a wide range of innovative technologies that align with NIH's mission to improve health and save lives. A key objective of this work is translating promising technologies to the private sector through strategic public and private partnerships, so that life-saving innovations reach consumer markets.

We invite you to explore our website to learn more about NIH's SBIR & STTR programs, or get started on an application!

SET ASIDE

(FY16)

(FY17)

SMALL BUSINESS INNOVATION RESEARCH (SBIR) PROGRAM

Set-aside program for small business concerns to engage in federal R&D -- with potential for commercialization

(FY16)

(FY17)

SMALL BUSINESS TECHNOLOGY TRANSFER (STTR) PROGRAM

Set-aside program to facilitate cooperative R&D between small business concerns and US research institutions -- with potential for commercialization

- Stimulate technological innovation
- Use small business to meet federal R&D needs
- Foster and encourage participation by minorities and disadvantaged persons in technological innovation
- Increase private-sector commercialization innovations derived from federal R&D

Small Business Innovation Development Act of 1982

P.L. 112-81 Re-Authorizes program through FY2017

- Stimulate and foster scientific and technological innovation through **cooperative research** and development carried out ***between*** **small business concerns** and **research institutions**
- Foster **technology transfer** between small business concerns and research institutions

Small Business Research and Development Enhancement Act of 1992

P.L. 112-81 Re-Authorizes program through FY2017

National Institutes of Health
Office of Extramural Research

SBIR/STTR Budgets by Agency FY2015

~ \$2.5B in FY15
across all agencies

Agencies with SBIR and STTR Programs	Budget
Department of Defense (DOD)	\$ 1.070 B
Department of Health and Human Services (HHS), including the National Institutes of Health (NIH)*	\$797.0 M
Department of Energy (DOE), including Advanced Research Projects Agency - Energy (ARPA-E)	\$206.1M
National Aeronautics and Space Administration (NASA)	\$ 180.1 M
National Science Foundation (NSF)	\$176.0 M
Agencies with SBIR Programs	Budget
U.S. Department of Agriculture (USDA)	\$25.3M
Department of Homeland Security (DHS): Science and Technology Directorate (S&T) and Domestic Nuclear Detection Office (DNDO)	\$17.7 M
Department of Commerce: National Oceanic and Atmospheric Administration (NOAA) and National Institute of Standards and Technology (NIST)*	\$8.4M
Department of Transportation (DOT)	\$7.9 M
Department of Education (ED)	\$7.5 M
Environmental Protection Agency (EPA)	\$4.2 M

2016 Budget	SBIR	STTR
NIH	\$763M	\$114M
CDC	\$9M	N/A
ACL (NIDILRR)	\$2.7M	N/A
FDA	\$1.55M	N/A
ACF	\$93.5K	N/A

Discovery

Phase I

Phase I Feasibility Study

Budget Guide: \$150K for SBIR and STTR

Project Period: 6 months (SBIR); 1 year (STTR)

Development

Phase II

Phase II Full Research/R&D

\$1M for SBIR and STTR, over two years

Phase IIB

Phase IIB Competing Renewal/R&D

Clinical R&D; Complex Instrumentation/Tools to FDA
Many, but not all, IC's participate
Varies~\$1M per year; up to 3 years

Commercial- ization

Phase III

Phase III Commercialization Stage

NIH, generally, not the “customer”

Consider partnering and exit strategy early

- Organized as for-profit US business
- Small: 500 or fewer employees, including affiliates
- Work must be done in the US (with few exceptions)
- Individual Ownership:
 - Greater than 50% US-owned by individuals and independently operated OR
 - Greater than 50% owned and controlled by other business concern/s that is/are greater than 50% owned and controlled by one or more individuals OR
 - Be a concern which is more than 50% owned by multiple venture capital operating companies, hedge funds, private equity firms, or any combination of these (For FOAs after 1/28/2013 NIH; 7/10/14 CDC)

Determined at Time of Award

- Applicant is a Small Business Concern
- Formal Cooperative R&D Effort
 - Minimum 40% by small business
 - Minimum 30% by US research institution
- US Research Institution
 - College or university; other non-profit research organization; Federal R&D center
- Intellectual Property Agreement
 - Allocation of rights in IP and rights to carry out follow-on R&D and commercialization

SBIR and STTR Critical Differences

	SBIR	STTR
Partnering Requirement	<u>Permits</u> partnering	<u>Requires</u> a non-profit research institution partner (e.g. university)
Work Requirement	Guidelines: May outsource 33% (Phase I) 50% (Phase II)	Minimum Work Requirements: 40% small business 30% research institution partner
Principal Investigator	Primary employment (>50%) must be with the small business	PI may be employed by either the research institution partner or small business

Award is always made to the small business

Important Facts to Remember

- Eligibility is determined at **time of award**
- PD/PI is not required to have a Ph.D./M.D.
- PD/PI is required to have expertise to oversee project scientifically and technically
- Applications **may be** submitted to **different agencies** for similar work
- Awards may not be accepted from different agencies for duplicative projects

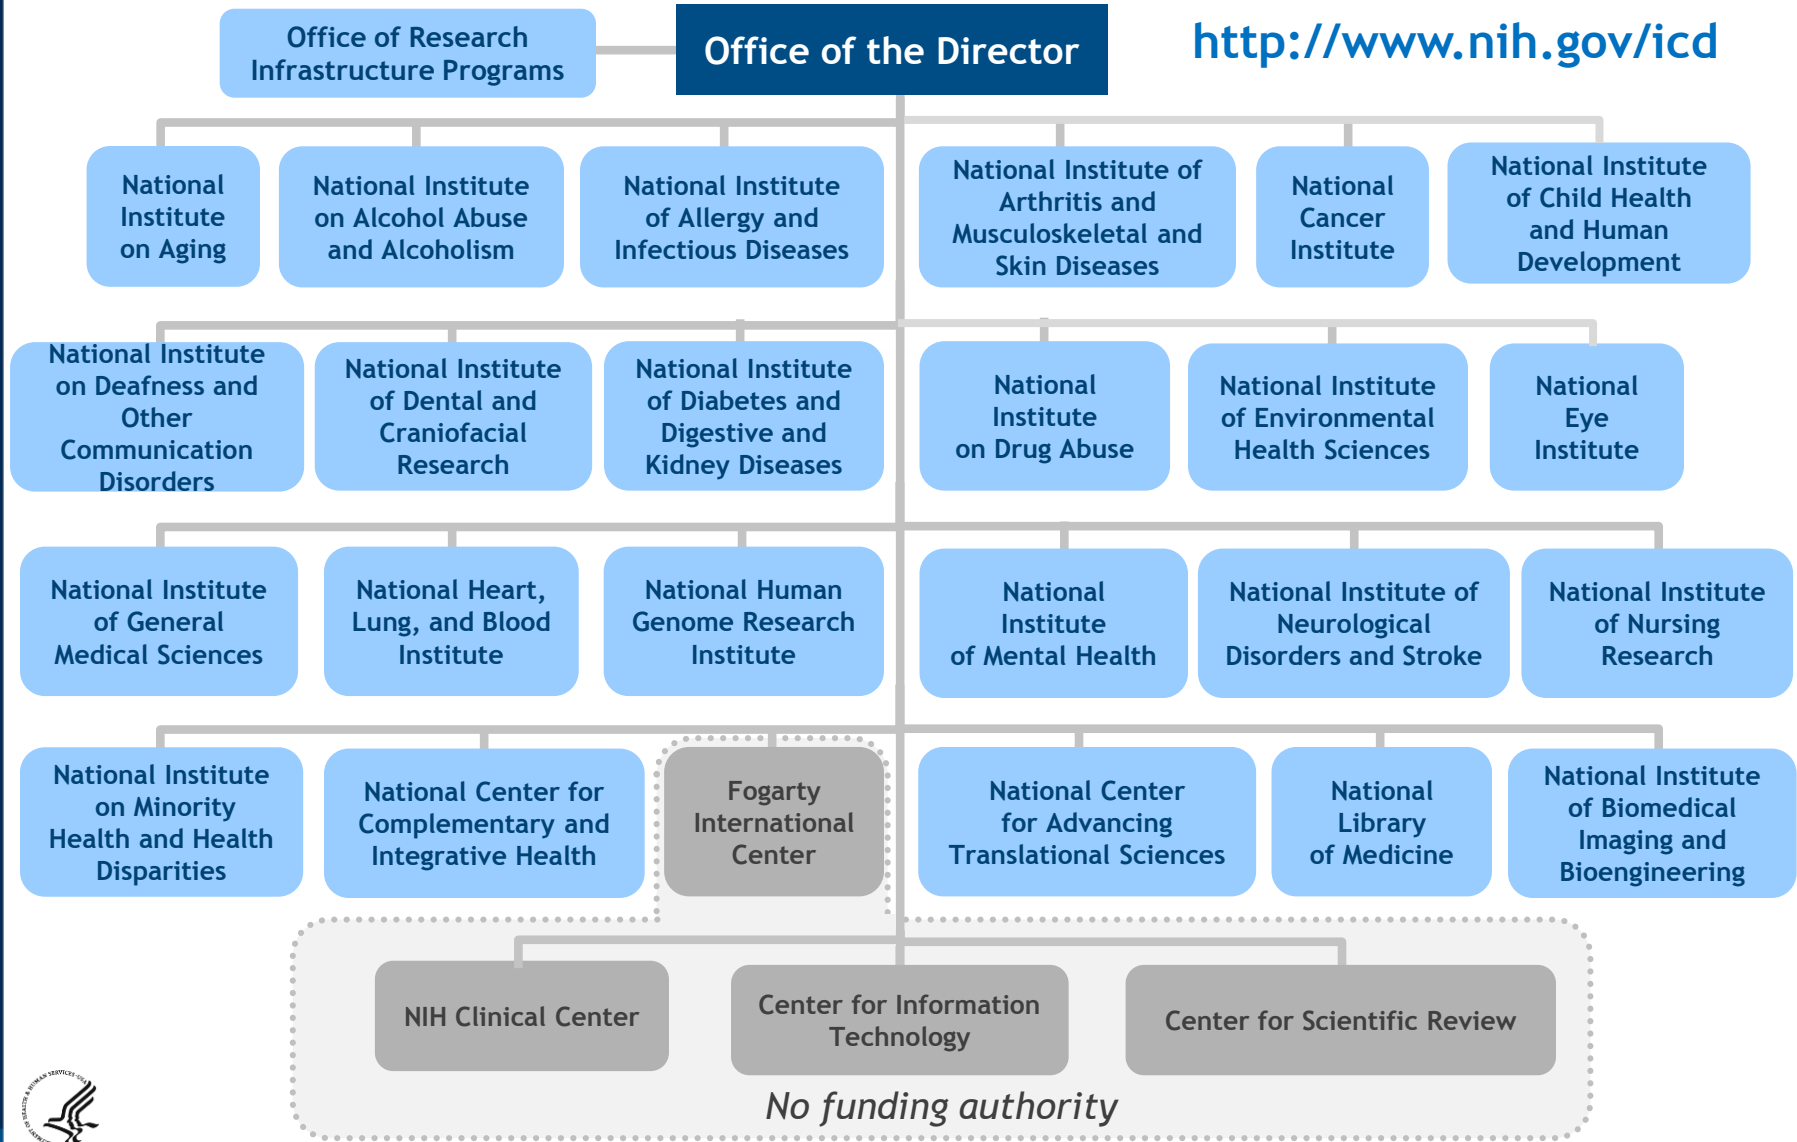

- SBIR/STTR Program Overview

Success Rates Posted Online: http://report.nih.gov/success_rates/index.aspx

- SBIR/STTR Program Overview
- NIH SBIR/STTR Program Specifics
- **Reauthorization Updates**
- Solicitations and Funding Opportunities
- The NIH Peer-Review Process
- Transitioning to the Marketplace
- Question & Answer

- See [NOT-OD-13-071](#) for details
- New SBIR/STTR award budget HARD caps in place

Award Guidelines

Program	Phase I	Phase II
SBIR	\$150,000	\$1,000,000
STTR	\$150,000	\$1,000,000

Award Hard Caps - cannot exceed

Program	Phase I	Phase II
SBIR	\$225,000	\$1,500,000
STTR	\$225,000	\$1,500,000

- Agencies (**not applicants**) must apply for a waiver from the SBA for budgets over the hard cap (\$225,000 for Phase I and \$1,500,000 for Phase II)
- SBA has approved a topics list, which allows budgets to exceed the hard caps as long as the project topics are on the list
- [Pre-approved topics list](#) is Appendix A in [regular topics document](#)
- The approval is good for the 2016 SBIR/STTR Omnibus, and any FOA that falls on the topic list, including the Direct Phase II FOAs

- Small business concerns that are majority-owned by multiple venture capital operating companies (VCOCs), hedge funds and/or private equity firms ARE NOW ELIGIBLE to apply to **NIH and CDC SBIR**
- See [NOT-OD-13-071](#)
- SBIR and STTR VCOC [forms available online](#)

**Note: SBIR VCOC form also used for SBIR contracts*

Switching between SBIR and STTR

NIH SBIR/STTR applicants may now ‘switch’ programs at Phase II or Phase IIB to any active NIH SBIR/STTR solicitation.

Which means:

- Phase I STTR Awardees may apply for NIH SBIR or STTR Phase II
- Phase I SBIR Awardees may apply for NIH SBIR or STTR Phase II
- Phase II STTR Awardees may apply for NIH SBIR or STTR Phase IIB
- Phase II SBIR Awardees may apply for NIH SBIR or STTR Phase IIB

Note that not all NIH Institutes and Centers accept Phase IIB applications.

New to SBIR/STTR
WHERE TO START

Each year NIH issues an SBIR and an STTR Omnibus grant solicitation for small businesses, which allow small businesses to submit researcher-initiated projects that are within NIH's mission. The **2015 Program Descriptions and Research Topics** document explains priority research areas for the US Department of Health and Human Service (HHS) SBIR and STTR programs at each of the 24 participating NIH Institutes and Centers (ICs), Centers for Disease Control and Prevention (CDC), Food and Drug Administration (FDA) and the Administration for Children and Families (ACF). You may perform a "Ctrl-F" keyword search to identify NIH ICs that have overlapping program priorities with your research topic, and also use NIH Matchmaker to conduct keyword searches of your topic to identify ICs that have funded research in your area. With any specific idea, you should speak directly with the program official to gauge their interest. Click here to view the Fiscal Year 2015 SBA approved topics for budget waivers.

NIH's Institutes and Centers also issue targeted funding opportunity announcements for certain research areas, as well as an annual NIH SBIR contract. Find out more about the different NIH funding opportunity announcements.

Funding Opportunities for U.S. Small Businesses

If your small business concern (SBC) decides to apply, please use the **SF424 (R&R) SBIR/STTR Application Guide (Version C)**, and the **Annotated SF424 (R&R) SBIR/STTR Form Set (FORMS-C)** for step-by-step instructions on how to complete the application.

Both grant and contract applications require separate forms or appendixes to be attached. Whether an attachment is required or not is often based on how you answer specific questions throughout the application (ie: related to human subject's research). You may find these forms or appendixes in your grant application package that you download from Grants.gov, or you may also access them online, [here](#).

- **Two week window** of consideration after the application due date for ALL grant applications, all mechanisms (PA, PAR, RFA)
- SBIR/STTR previously had 1 week window
- Supersedes old policy [NOT-OD-11-035](#)

What is a Women-Owned Small Business (WOSB)?

- A firm must be at least 51% owned and controlled by one or more women, and primarily managed by one or more women (who must be US citizens)
- The firm must be “small” in its primary industry in accordance with SBA’s size standards for that industry
- SBCs self certify on the SF 424 (R&R) Form

What is a Socially and Economically Disadvantaged Business (SDB)?

- The firm must be 51% or more owned and control by one or more disadvantaged persons
- The disadvantaged person or persons must be socially disadvantaged and economically disadvantaged
- The firm must be small, according to SBA's size standards
- You must self-certify by registering your business in the System for Award Management

Timeline: New Applications

- No Significance
 - Unimportant problem, unconvincing case for commercial potential or societal impact
- Inadequately defined test of feasibility
- Lack of innovation
- Diffuse, superficial, or unfocused research plan
- Questionable reasoning in experimental approach
 - Failure to consider potential pitfalls and alternatives
- Lack of experience with essential methodologies
- Unfamiliar with relevant published work
- Unrealistically large amount of work proposed

- Talk to an HHS Program Officer about your application and **SUBMIT EARLY** (days not hours and minutes)!
 - Program Officer contact information found on the [HHS Agency Contact webpage](#)
