- *May 2017: Be a Green Mav (Including solar umbrellas) - Chelsea*
- *Paper Towel Usage*
- *Recycle Batteries and Cell Phones*
- *Clothing Swap*

Green Team Activities for 2016-2017

- Student Research Project Student Panel:
 - Dr. Holland, Sarah, and Jade have set up the event for March 9 at 7 pm. It is a combined effort with Delta Sigma Pi. As of right now, we are working on getting a speaker, but we have six students who are willing to share their past/current projects regarding sustainability to attendees of the event. This will take place in Mammel Hall Auditorium.
- What's the Business Model for Utilities Presentation (April):
 - Rick is currently looking for speakers and donors.
- MWEC & Business Plan:
 - Maverick Business Plan will be taking place on April 27th.

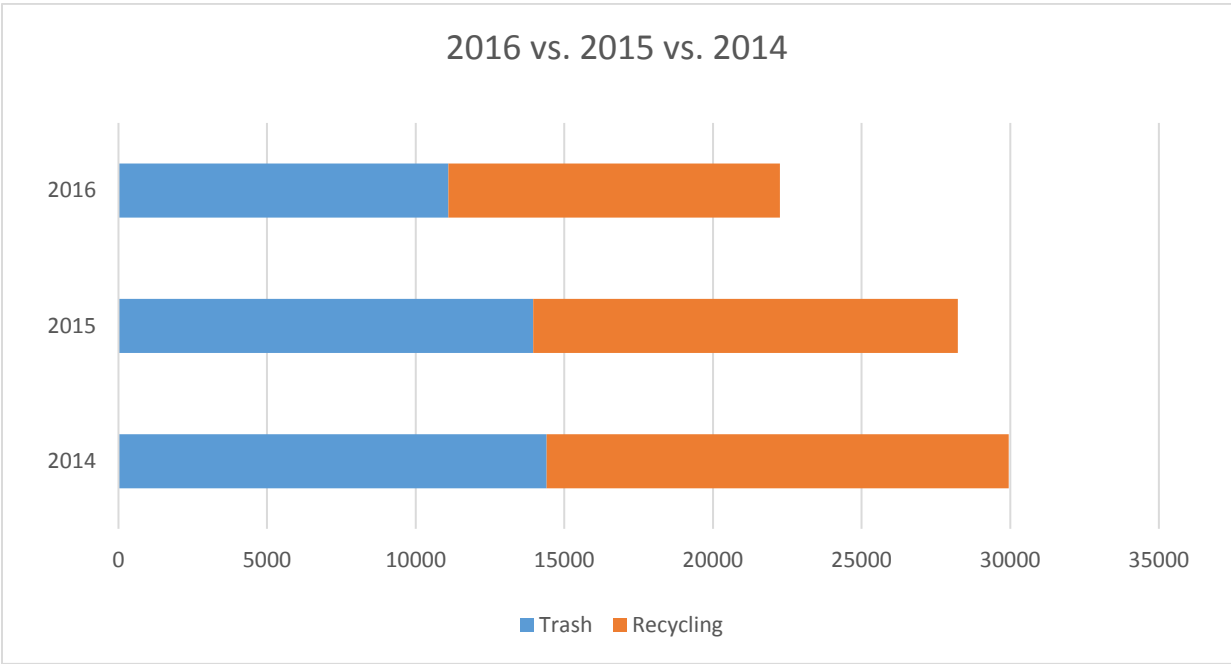

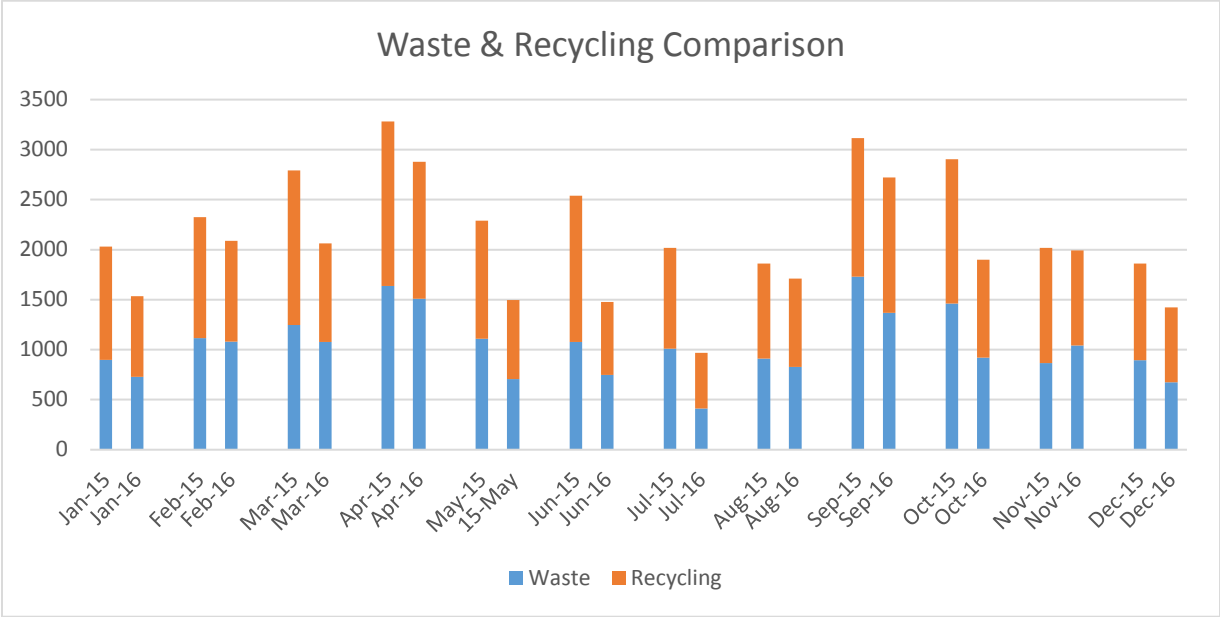

- Dr. Eesley agreed to let us provide a Triple Bottom Line Award to the best business idea with sustainable aspects.
- The award will be advertised on the website and the student awarded the Triple Bottom Line Award receives \$300 to go toward his/her business.
- Electronics Recycling:
 - Sarah plans to reach out to Keep Omaha Beautiful to see what they have planned in April for Electronics Recycling. If they do not have anything planned, she wants to set up an Electronic Recycling city event at Baxter Arena. Either way she hopes to partner up with them.
- Water Taste Test:
 - Will happen in August 2017
 - We will use plastic cups instead of paper cups
 - Most can't tell the difference between the water, we will make a "Can't tell the difference" category.
 - Let the person taste testing the water what their preference was.
 - Perhaps hand out wide mouth reusable bottles in the future.
- Seven Days of Service
- Clothing Swap:
 - Annesha plans to head this event. She will schedule and plan it (probably for April 10-11).
 - We will ask Chelsea to design a flyer for the event.
 - Fly distribution will occur on North and South campus. Sarah will present the event to the sustainability committee when they meet next (Feb. 23rd).
 - Edward mentioned introducing the event to members of the Staff Advisory Council (SAC) during their next meeting.
 - Annesha suggested that in the future, the clothing swap take place in January or February (before the career fair), so students have business professional clothing to wear at the career fair.
- Move-Out: Sarah has no additional updates with this, except that housing plans on collaborating with Youth-Mart for the move-out.
- Earth Day: Sarah is working on getting a table at Earth Day (April 22nd).

Mammel Hall Dashboard Descriptions:

Rick and Jade are in the process of finding a way to add the sustainability piece to the website.

Waste Wise/Hydration Station

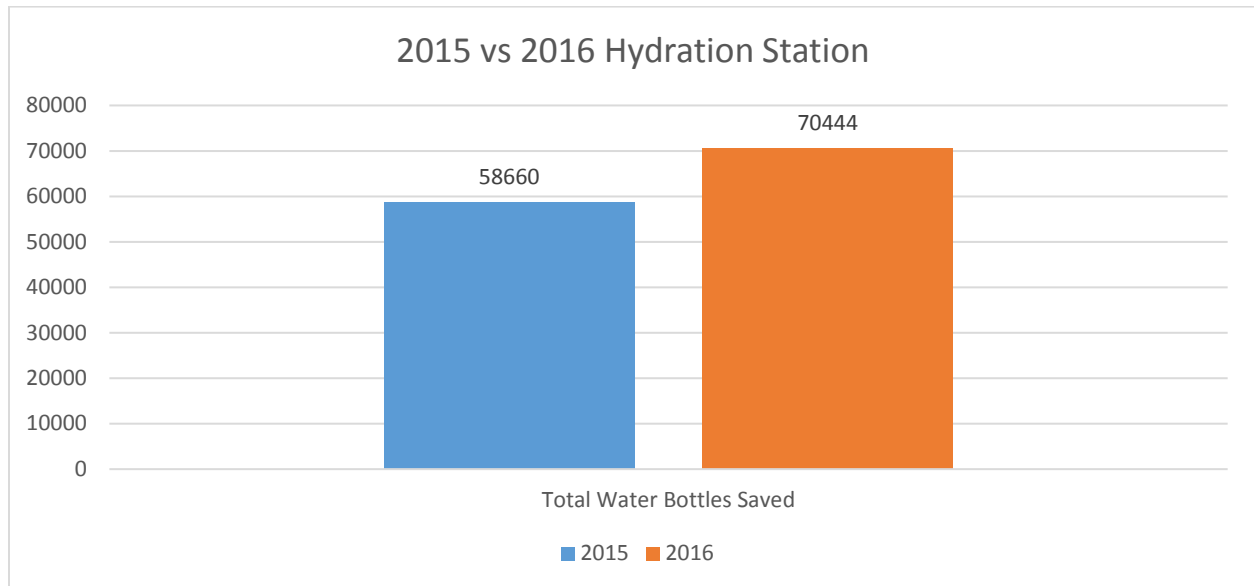

Waste Wise numbers are reviewed monthly. These numbers include the trash and recycling at Mammel Hall.

Hydration Station

As of January 2016, Mammel Hall Hydration Stations have prevented 70,444 disposable water bottles.

Sarah Burke is now collecting hydration station numbers on all campus locations. Jade will continue to collect numbers at Mammel Hall and share them with Sarah on a monthly basis.

Numbers indicate an increase in water bottle prevention in the past four months.

Announcements/Updates:

None (Listed Earlier)

Next Meeting: Monday, February 20, 2017.
