Mammel Hall has earned LEED Gold. Let's live up to its standard!

July 2016:

TAKE THE BATTERY CHALLENGE!
Recharge and Recycle

Did you know? 15 billion batteries end up in landfills each year.

Rechargeable batteries can go through **1000 cycles of charging** before replacing.

Rechargeable batteries are all **recyclable**. Single-use, alkaline are recyclable, but only a few places accept them.*

Buy rechargeable batteries to replace single-use alkaline batteries.

Don't forget to include (rechargeable) batteries with your gifts this year.
