NBDC classes are small ... and that’s a good thing!

Open enrollment classes typically range from six to 24 people. Facilitators know and remember students’ names. Participants interact with each other. There are more practical learning experiences.

Allows for flexibility and creativity
Questions and discussion are easier to accommodate, helping facilitators adapt content to individual situations. Small class size allows for more diverse learning experiences such as group exercises, demonstrations and case studies.

Encourages participation
Even shy students will contribute to class discussions, share their experiences and learn from others if the class size is small. Learning is enhanced when all students feel free to participate and cooperate.

Individualizes instruction and feedback
Small class sizes give facilitators the time and space to provide feedback to participants on an individual basis.

“With the small class size, I knew the training would be more personal, less intimidating, and allow for more interaction with the instructor. The class was perfect ... the instructor was truly an expert in her field, and somehow capable of making subject matter that was completely overwhelming...enjoyable!”

Class Location
UNO College of Business Administration

Agile Principles and Practices
Agile methods take a flexible, holistic product development strategy in which teams work as a unit to reach a common goal. Unlike the traditional, sequential approach, Agile methods enable development teams to self-organize to get quality work done sooner. Students will learn about Agile and how to implement, manage and expand Scrum and/or Kanban in your team.
Fee: $299. Facilitator: Michael Perdunn, MA, PMP, CRISC

Building 4-Dimensional Teams
Teaming is the norm in successful organizations. In this fast-paced workshop, you will discover how to increase team collaboration while providing more value to your organization. You will identify core behaviors and learn how to motivate team members based on their strengths. Explore how to encourage open communication and collaboration as you create a well-balanced 4-D team.
Fee: $599. Facilitator: Pamela Sumner, MS

Core Principles for Business Analysis
Learn business analysis, BA principles, practices, roles and responsibilities. You will understand IIBA’s business model and learn the six knowledge areas. Exercises will keep you engaged and encourage you to share personal experiences.
Fee: $599. Facilitator: Pam Soderholm, MS, PMP

Communicating Projects Visually
Almost every study reveals that communication issues turn out to be project managers’ number one problem and consume 90% of their time. Beginning project managers issue status reports, good project managers create a short plan. Great project managers do both as well as communicate to all stakeholders.
Fee: $299. Facilitator: Beth Giesbrecht, BS, PMP
Communicating with Project Stakeholders
Understand the importance of stakeholder management for project success as well as the ethical issues involved. You will complete the class with a plan on how to communicate information and get the kind of feedback you need to be effective in delivering a project.
Fee: $299. Facilitator: Beth Giesbrecht, BS, PMP

IT Project Management
You will learn to bring IT projects in on schedule and under budget. Learn about a Project Charter and Definition; estimate project hours, duration and cost; and manage and report on progress. This course blends current information to help you strengthen your IT project management skills.
Fee: $599. Facilitator: Pam Soderholm, MS, PMP

Leading Change without Power
How can you create change within an organization when you don’t have power? You study and understand the social and organizational forces working for and against you. In this class, you will learn simple models for change and strategies that can overcome resistance. Discover how you can become an effective agent for change.
Fee: $299. Facilitator: Michael Perdunn, MA, PMP, CRISC

Learning Leadership Agility
In today’s world of rapid change, leadership agility is required to deliver business results. You will compare and contrast the agile leader with more traditional leadership styles. You will learn the mindset, values and competencies important in agile leadership and practice skills needed to enact a sustainable agile environment.

Objectives:
• Understand how agile leadership varies from traditional models by working through a leadership simulation.
• Use case studies to work through the values of competence, capacity and confidence.
• Consider new competencies needed to make the agile transformation.
• Practice new skills to become an agile leader.
Fee: $299. Facilitator: Beth Giesbrecht, BS, PMP

Project Management Principles
Have you ever been both delighted and overwhelmed by the variety of approaches, tools, methodologies and practices that can be used in managing different types of projects? Learn the principles that apply to all types of projects and how to tailor them to address the needs of small projects.
Fee: $599. Facilitator: Pam Soderholm, MS, PMP
Microsoft Project 2016
Develop a project schedule, assign task dependencies, resources and create leads and lags. Learn to use and customize views, tables, filters, sorts and reports to display your data the way you desire. You can track projects by establishing baselines and assigning costs to resources and tasks. Learn the basic principles that can be applied to any project management software.
Fee: $599. Facilitator: Beth Giesbrecht, BS, PMP

PMP Exam Prep
This instructor-led course fulfills all contact hours required for the PMP Exam and will give you the confidence to pass the test. You receive a review book and a three-month subscription to online resources, flashcards, and Q&As for the PMBOK® 6th edition. A simulation will recreate an actual exam. An introductory class such as Successful Project Management or Project Management for IT is highly recommended before taking this course.
Fee: $1,699. Facilitator: Pam Soderholm, MS, PMP

Prioritize or Agonize
Is your “to-do” list getting too long? Learn skills of time management that will help you organize and complete your daily tasks. You will take away workable ideas on how to better manage your responsibilities so that—rather than yesterday’s unfinished business—you can start each day anew!
Fee: $125. Facilitator: Beth Giesbrecht, BS, PMP

Process Mapping for Business Improvement
Learn the sequence and symbols commonly used to plan processes. You will proceed from mapping existing, organized processes toward planning the future state of processes. In teams, you will actually map several as-is processes and then proceed to mapping at least one future process.
Fee: $299. Facilitator: Beth Giesbrecht, BS, PMP

New Tools for your PM Toolbox
Are you a project manager who would like new techniques for working with teams? Good project managers are always on the lookout for tools to more effectively manage their projects. Through hands-on learning exercises, you will be exposed to 10 collaboration and communication techniques effective project managers use to enhance project success in a wide variety of situations.
Fee: $299. Facilitator: Pam Soderholm, MS, PMP
**Requirements Elicitation**

If the requirements are not correct, your project is doomed. In this class, you will learn various methods of gathering requirements, such as prototyping and reverse engineering. You will practice correctly writing requirements. If your requirements are communicated accurately, everyone prospers.

Fee: $899. Facilitator: Pam Soderholm, MS, PMP

**Successful Project Management**

Learn PMBOK®-aligned techniques for planning and implementing projects to produce desired results on time and within budget. Learn to set measurable objectives, estimate project time and costs, determine scope, manage resource requirements and control results. Includes an interactive exercise in which students manage a project from planning through measurement of results.

Fee: $599. Facilitator: Beth Giesbrecht, BS, PMP

**Surviving Troubled Projects**

Any project can fail or under-deliver. Even the most experienced project managers may find themselves with such a project, but they can lessen the chances. This class uses gamification techniques applied to realistic scenarios to teach all three arms of the PMI talent triangle.

Fee: $299. Facilitator: Beth Giesbrecht, BS, PMP

**Running Productive Meetings**

There are good meetings and bad meetings. Bad meetings are wasteful and lower morale. Good meetings leave your team energized and excited. You will learn how to organize and run effective meetings that increase productivity through improved collaboration, communication and consensus.

Fee: $125. Facilitator: Beth Giesbrecht, BS, PMP

**Sustainable Practices**

Learn how organizations integrate social and environmental goals and responsibilities across the supply chain while seeking to improve financial performance. You will learn about the opportunities and innovations related to sustainability as well as a process for implementation within your operations.

Fee: $299. Facilitator: Rick Yoder, MS, SFP

Creativity is one of the most important characteristics of an effective leader. Creative leaders challenge the ways in which things are done and create an environment in which others can do the same. In this advanced course, leaders will learn to strategize more creatively as they face new challenges.

“The role of a creative leader is not to have all the ideas; it’s to create a culture where everyone can have ideas and feel that they’re valued. So it’s much more about creating climates. I think it’s a big shift for a lot of people.” — Sir Ken Robinson

Leaders Who Coach
The most successful leaders are like the best coaches — they help those around them succeed. Learn how leaders who coach support strong engagement, develop trust and improve creativity and communication in complex environments.

EQ Essentials for Leadership Success
Developing emotional intelligence (EQ) allows us to recognize our emotions, impulses and thought processes and those of others. Learn how to demonstrate strong self-awareness, thoughtfully frame messages to your audience and practice self-control under stress.

Creative Decision Making
Creative decision making derives from thinking outside the box and seeing issues from multiple perspectives. Learn how managers use creative decision making to help their organizations innovate and grow.

Leading Change
Overcoming resistance to change is a crucial role leaders play in their organizations. Learn skills that creative leaders use to minimize potentially negative effects of change on morale and productivity.
