

Nebraska Biomechanics Core Facility

Healthy Volunteers Needed

IRB # 152 -11-FB

Healthy volunteers are needed to participate in a study taking place in the Biomechanics Research Building. The study is investigating the differences between treadmill and overground walking.

Participants should be:

- 40 years of age or above
- Be of normal body weight and good health
- Able to take part in a single data collection lasting approximately 2 hours
- Able to provide informed consent
