Section 4: Initiative's Description:

The CEHHS DEAI Network initiative will increase the college's capacity for DEAI work by creating a system of support for DEAI projects within the college. Our goal for this initiative is to create a network for CEHHS DEAI projects to discover overlapping goals and garner support and power based on collaboration. The larger purpose of the DEAI Network is to engage CEHHS community members in resource development and funding efforts to sustain DEAI projects long-term and make them more visible across campus in our retention and recruitment efforts for staff, faculty, students, and our broader Omaha community. Currently, little communication occurs between CEHHS DEAI projects. This initiative will create structures within CEHHS that align with the UNO Office of DEAI to ensure that DEAI efforts are a visible, accessible part of our identity as a college on campus. Additionally, creating a small funding source for these projects will increase engagement and support data collection to articulate the impact
