Mind and Brain Health Seminar Series Presents

Danish Bhatti, MD
Director-Neurological Sciences Observership Program
Assistant Professor-Department of Neurological Sciences

Research in Parkinson's Disease

PRESENTED BY THE
DEPARTMENT OF NEUROLOGICAL SCIENCES

At this seminar, Dr. Bhatti will discuss current research being conducted on Parkinson's Disease. Dr. Bhatti's research interests include Parkinson's Disease, Deep Brain Stimulation Surgery, and advanced therapies for Parkinson's Disease.

The overall focus of the Mind and Brain Health Seminar Series is to develop knowledge of the cognitive and neurosciences, methods, statistics, ethics and technology. This knowledge will be applied to research and clinical programs that promote mind and brain health by fostering innovative, cross-disciplinary research collaborations, community academic partnerships, and evidence-based medical practices.
