

Fund for Undergraduate Scholarly Experiences (FUSE) Application Guidelines

Offered by the Office of Research and Creative Activity (ORCA)

Applications accepted beginning September 15, 2022

The Fund for Scholarly Experience program provides support to students seeking a faculty-mentored research or creative activity opportunity. The program is open to all currently enrolled undergraduate students who pay student fees to UNO. The program offers up to \$2,500 per student.

Applications will be considered until funding runs out or until there is insufficient time to complete compliance and contract requirements.

Program Requirements

Students must:

- Be currently enrolled and paying fees at UNO through Fall semester 2023
OR
- Be a currently enrolled senior graduating in Spring 2023. **Seniors may only be awarded if they apply by December 9, 2022 and can submit all compliance approvals (IRB, IBC, or IACUC) and paperwork by January 16, 2023.**
- Identify an appropriate faculty mentor
- Propose a meritorious scholarly experience in conjunction with the mentor
- Present at the UNO Research and Creative Activity Fair in March 2024. Graduating seniors will be given the option to write a final report in lieu of presentation at the Fair.

Mentors must submit a one-page (maximum) letter of mentor support, providing:

- An analysis of viability of the project objectives and methodology
- Verification of proposed budget needs and costs
- Description of the mentor support to be provided
- Description of the student's background and preparation for the project

NOTE: Faculty may be listed as a mentor on as many projects as they have capacity for, though we encourage a 4 (four) undergraduate student limit to give mentees the best experience. Mentors receive a \$500 per FUSE and/or GRACA student mentor award (up to \$1000) to support their own line of academic research or creative activity.

A Note to Potential Mentors:

FUSE provides an ideal opportunity for faculty to extend their research into new areas including, for instance, pedagogical scholarship or scholarship of teaching and learning. If you would like to discuss how you might develop a FUSE/GRACA project based on your community engagement activities, service learning, teaching field experiences, or other scholarly service or teaching activities, please contact us at unoorca@unomaha.edu.

Compliance Requirements

Student projects that require compliance approval (projects involving human subjects, vertebrate animals, or biohazardous materials) must have IRB, IACUC, and/or IBC approval before funds are released.

The title of the IACUC/IRB/IBC protocol must be identical to the FUSE proposal title. Students' names must be listed on the protocol. Compliance approvals must be received by 11:59PM on May 1, 2023 for students graduating in Fall 2023 or later, and by 11:59PM on January 16, 2023 for seniors

graduating in Spring 2023. Failure to obtain compliance approval by this date will result in forfeit of award.

What does FUSE fund?

-FUSE funds a faculty-mentored scholarly research or creative activity experience. This may include, but is not limited to: research, data collection, instrument development, data management/analysis, or development of a scholarly/creative activity product (e.g., publication, artistic expression, artistic performance, or exhibit)

-Funds may be requested for a **stipend of up to \$2,000**, project-related materials and supplies, operating expenses, and/or travel for research or data/information collection. Stipends do not require an itemized budget. **Funds may be used for one or multiple categories and should be detailed in the budget justification.**

-A total of **\$2,500** in funding may be requested.

A note about timelines:

The FUSE program is intended to fund projects taking place in May, June, July, and/or August 2023. Your timeline may include activities before or after these months, but at least 50% of your project should occur during the Summer to qualify for funding. For seniors graduating in Spring 2023, all activities must occur in February, March, April, and/or May 2023.

What is NOT funded by FUSE?

-FUSE **does not fund retroactively**, nor does it fund completed projects.

-Funds cannot be used for **publication charges, salary/release time for faculty, indirect costs, or the hiring of student or other workers.**

-FUSE **does not fund activities for which students are receiving academic credit** (e.g. study abroad, independent study courses), however scholarly experiences in addition to these activities can be considered.

- **Travel funding is only available for project activities.** FUSE **does not** fund travel to present at or attend conferences. Undergraduate students may request funding from [the University Committee on Research and Creative Activity \(UCRCA\)](#) for this purpose.

Proposal Content

Students are expected to write their own FUSE proposals, with input from their faculty mentor.

Adhering to UNO's policy towards plagiarism, proposals will be screened for original work. Poorly written proposals may be rejected without review. Students are advised to allow plenty of time for preparation of proposal materials. University resources, including the UNO Writing Center (<http://www.unomaha.edu/writingcenter>), are available.

Proposals should describe the scholarly project, the product of the proposed work, its contribution to the field or conceptual importance. While it is expected that students develop an independent project, activity, or research question, the program also expects proposed activities to be related to the broader umbrella of the faculty mentor's scholarly activities and contribute to the professional development of faculty mentors. ***If you have received previous FUSE funding, please provide the title of your previous project, the results of your research or creative activity, and an explanation of how your new proposal differs from and/or builds on your previous project.***

Proposal Format

The following information must be written by the student and submitted as a single PDF document, ***together with the faculty mentor letter of support***, entitled with the student's surname (FUSE2022_student surname.pdf):

1. Title of Project

2. Project Description (2 page maximum, single spaced, 11 pt font minimum)

This section should include:

- A. Description of Project;
- B. Activities, Process, or Methodology: A description of the activities or process to be undertaken. Describe how they will result in project completion. If appropriate to the discipline, include a research methodology along with justification;
- C. Project Timeline: Illustrate a schedule of activities with at least 50% occurring May-August 2023 (or February-May 2023 for graduating seniors);
- D. Student/Faculty Mentor Roles: A description of the roles of the student and faculty mentor in the project. This is separate from the faculty letter of mentor support;
- E. A list of previous internal funding received (FUSE or UCRCA), with a description of how this project builds on or differs from previously funded projects. Provide outcomes.

3. Budget and Budget Justification (1 page maximum)

- a. The stipend and anticipated travel, materials, and operating expenditures should be listed and well justified. If the budget is for materials/supplies only, please provide a reason why no stipend is requested.
 - i. Students requesting funding for international travel must include the \$50 Education Abroad Office administration cost in their budget.
- b. If travel is required, the rationale for travel funding should be described here. All airline travel must be booked through [Fox World Travel](#). Please consult the University policies on travel to foreign countries - restrictions may apply.
 - i. Students requesting funding for international travel are advised to contact Yue Song (yuesong@unomaha.edu) to discuss their plans before submitting a FUSE application.
- c. Redistribution of funds between the stipend and materials/supplies/travel/operating costs is not permitted after FUSE funding is awarded. Re-budgeting within materials, supplies, travel, and operating costs is allowable with justification.

4. References and/or Citations (no page limit)

5. Letter of Mentor Support (1 page maximum, single-spaced, 11 pt font minimum)

The letter must address the program requirements listed in the RFP. If the FUSE project is a part of the mentor's research or creative activity program, the mentor letter should explain how the proposed project fits into this program but has distinct outcomes and/or activities. for the student applicant (e.g., data collection; survey/questionnaire development; conducting interviews; managing/analyzing data, etc.). The letter should also indicate the mentor's commitment to overseeing the project, specifying means to measure progress and frequency of anticipated meetings.

NOTE: THE LETTER OF MENTOR SUPPORT IS TO BE GIVEN TO THE STUDENT AND INCLUDED IN THE STUDENT'S SINGLE PDF SUBMISSION DOCUMENT.

The application portal in NuRamp will open on September 15, 2022.

Submission Instructions

Visit the online application site (NuRamp): <https://nuramp.nebraska.edu/> where students will submit their applications and upload their proposals.

The following steps will help students and mentors navigate the application site:

- Under **Main Menu** tab, find “**Internal Competitions**”
- Click on “**Proposals and Awards**”
- Click on “**Create New Application**”
- Select “**FUSE 2022/2023**” from the drop-down list of competitions
- Begin entering application information

Upon their receiving notification of the student’s submission, it is recommended faculty mentors immediately complete the NuRamp signature routing process. A proposal is not considered for funding until all routing has completed.

Program Process

Proposals will be accepted beginning each fall and reviewed on an ongoing basis by designated program faculty and staff, to ensure fulfillment of all program requirements (listed above). Those not meeting program requirements will be returned to the student/faculty mentor pair for the opportunity to revise and resubmit the proposals. ORCA will provide guidance as needed to help students meet the program requirements. Funding decisions will generally be disseminated within 30 working days of submission but may take longer depending on the number of proposals being reviewed. **Proposals will be accepted as long as funds are available and there is sufficient time to obtain compliance approval.**

Release of Funds

Release of stipend funds in four equal payments will only occur May – August 2023 OR February – May 2023 (graduating seniors only). Funds for materials and supplies or travel may be available sooner, but are not guaranteed before May 31, 2023 or February 1, 2023 (graduating seniors only). *Funds will not be released until a contract has been signed by both the student and faculty mentor, the student has viewed the orientation webinar, completed the quiz, and all compliance approvals are received in the unoorca@unomaha.edu email inbox by May 1, 2023 or January 16, 2023 (graduating seniors only).*

NOTE: **FUSE stipend distribution may impact your current and/or future financial aid awards.** Per Federal rules, this type of funding must be counted as ‘Estimated Financial Assistance’ when calculating financial aid eligibility. If you have specific questions about the impact on your financial aid, please contact the Office of Financial Support & Scholarships. Graduating seniors who have their stipends released February-May are likely to have their financial aid impacted. **We recommend seniors consult the Office of Financial Support & Scholarships BEFORE applying for FUSE.**

Funds for materials, supplies, and travel must be utilized by December 15, 2023. Items purchased with FUSE funds are the property of the University (this does not include items purchased with stipend funds).

Questions

Please direct questions to the Office of Research and Creative Activity, unoorca@unomaha.edu. **Do not submit proposals to this email address; any so submitted will not be considered for review.**
