ADVISING HOLDS— Assign and Release

Navigation: Campus Community > Service Indicators (Student)

Service indicators used for Advising Holds can be assigned and released prior to Mass Assign.
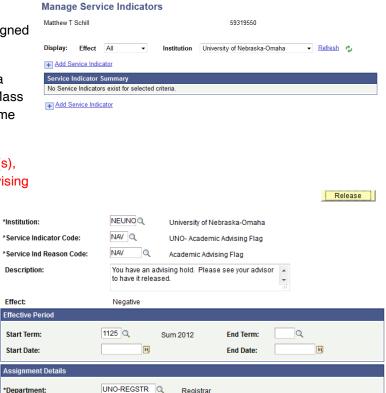

If you are pre-Advising a student and want to prevent a Advising Hold (NAV) from being assigned during the Mass Assign process, you can Assign and Release at any time for an upcoming semester.

Once a Service indicator has been present for a Term(s), the Mass Assign Process will not re-apply another Advising Hold (NAV).

Manage Service Indicators
