

Student Requests for COVID-19 Related Accommodations

If you have academic concerns associated with COVID-19, please complete the [Behavioral Review Team](#) (BRT) form indicating a COVID-19 related concern. After completing this step, please proceed to the process below, *if applicable*.

[Medical Supervision](#) allows students to regain lost attendance points and make up assignments and exams that were missed during excused absences. Accessibility Services Center (ASC) requires a letter or other documentation from the treating provider that states the date(s) or date range(s) supporting the medical care and inability to attend classes. Medical supervision is retroactive, so if the treating provider notates absences for past dates, they can still be submitted to ASC.

*Students do not need to be registered with ASC to receive medical supervision.

Accessibility Services Center (ASC) works specifically with UNO students with **documented disabilities**, including students **that are at an increased risk for severe illness due to certain underlying medical conditions as defined by the [Center for Disease Control](#) (CDC)**. **On receipt of valid documentation from a qualified healthcare provider**, ASC will determine eligibility and appropriate COVID-19 related accommodations. **PLEASE NOTE:** It will be necessary for most students to provide specific documentation from a qualified healthcare provider to assist in determination of eligibility for accommodations. Click [Documentation Guidelines](#) to learn about the specific information needed to assist in the determination of your eligibility for accommodations.
