Emergency Management Major/Military Connected

After years of uncertainty and working odd jobs after high school, emergency management major Jonathan Kiper enlisted in the military, leveraging its benefits to pursue a college education. His search led him to the University of Nebraska at Omaha, where the Military Connected Resource Center provided the support he needed in his transition from military to university life. Through hard work and determination, Kiper secured an internship with the Red Cross help from UNO’s Career Development Center, which led to a full-time position in emergency preparedness, recovery and response efforts. His experiences in the military, in the classroom, and at an internship prepared him to step up to support members of the Omaha area community in their time of need.
