DREW GRIESS

College of Information Science & Technology
Cyber Security Major

Drew came to UNO from the Community College of the Air Force, where he attended while serving, and actively served in the Air Force National Guard as a Staff Sergeant during his UNO journey. He recalls, “I used the Writing Center all the time, it really helped me be successful. And I also liked how helpful the Military-Connected Resource Center was when it came to understanding and using my military benefits.” In his time with UNO, he loved living on campus and how he was able to meet so many people in the dorms who he now calls close friends that he’ll keep in his heart as he steps into working in public service roles where he can pay the support he received forward.
